Art As Investment II Apr 23
2022 Everyone argues whether
fine art and collectibles are a
suitable investment with the
potential for substantial
appreciation. Art consultants
are making a living from this
concept. In my first book "Art
as Investment: An Anthology of
Academic Research Papers
from the Past One Hundred
Years," I published a few
academic research papers on
the subject, leaving readers to
decide for themselves. I did
receive several comments with
some thinking it was excellent
and a few put off by the
mathematics contained in
modern economic research
studies. In truth, you can skip
the mathematics and still
understand the results of the
study and the reasoning behind
its conclusions. Many felt that I
had taken a biased approach
and only published the papers I

agreed with and abandoned the
rest. In my new book, I have
published more research
papers and have also sought
those research papers which
were more current and
contemporary. Again, I selected
at random and simply looked
for relevancy in the papers that
I have published in my new
book. The mathematics can be
skipped and is simply used as
an additional argument to
bolster the academic
researcher's conclusion. The
content and conclusions are
very clear in each paper even if
you avoid the mathematics. I
would not tamper with
anyone's research finding and
therefore provided no editing
to the papers. They are here in
their entirety. To simply quote
excerpts or to eliminate parts
of the paper or to substitute my
own words would simply be
wrong. In addition my
understanding of each paper
may be very different to how it
appears to the reader. These
academic research papers are
simply tools to be used to get a
better understanding of the
issues and approaches. They
should not be considered
gospel and beyond refutation.
They seemed very solid to me
but then there are many ways
of interpreting conclusions and
results. Knowledge, in and of
itself is good. This additional
information as developed by
career academics can only
enhance one's understanding

as to whether or not art should be also considered as an investment vehicle and if so, is it an asset class worthy of investment. I have spoken with many collectors and the truth is that if you buy an expensive work of art, there always exists an investment component. The very same applies in buying a residence. It may primarily as a place to live, raise kids or simply a place to hide from the world, but at all times it is also a financial investment. anyone you speak to can always give you an estimate of the home they live in. You do not have to read the whole book. You can simply glance through it and read only those papers that appeal to you. It does not matter. Even if you come away with only one good idea, it is worthwhile examining this book.

Research Aug 16 2021 Unlike comparable books, Research introduces two sample student research papers in the second chapter, giving students a clear idea of their final goal as they progress through each step of the research and writing process. While covering all the basic research conventions, the book places a unique emphasis on the actual purpose behind the conventions, helping students develop research skills useful across the curriculum. This book is equally effective as a classroom text and as a reference tool for student researchers.

Biomedical Research

Papers. Second Edition Nov

30 2022 The specific principles of effective biomedical writing are presented and explained. This section-by-section analysis covers the following: the introduction, materials and methods, results, discussion, figures and tables, references, abstract, and title.

Research Papers on Defence and Strategic Studies Vol. 2 Jul 15 2021 Research Papers on Defence and Strategic Studies Volume 1 & 2 is the finest collection of research papers, Op-Eds, critical analysis report, and other essay formats written and compiled by the author. All the articles in the publication were written over a period of one year (2021-2022) during the author's academic journey on competing his master's degree on strategic studies. The author did an extensive day and night research on producing top-notch and cutting edge analysed reports on various topics ranging from defence and strategic policies to India-China affairs till the modern digital age of warfare. This volume (no: 2) contains the following chapters; Chapter: 6- Intelligence in Peace & War The essays under this chapter are; Do Human Intelligence Still Matter in the 21st Century? A well analysed critique paper on the report titled "Mapping the Global Future: Report of the National Intelligence Council's 2020 Project" Chapter: 7- Terrorism, Intelligence and Homeland Security The essays under this chapter are; Critical Reflection Report: 1- Pathways of Radicalisation: The report analyses three real life case

study of terrorists using Fathali Staircase of Radicalisation Model. The videos and a sample exercise included as a fun workout for readers. "Law Enforcement's over Reliance on Profiling and Informants will not counter the Small but Dynamic Threat of Lonewolf Attacks and Terrorist Cells." A research paper analysing this statement. Critical Reflection Report: 2. Digital CVE Mobilisation Strategy: The report analyses the success rate of CVE strategy. Video and an assessment of article by the Brennan Centre for Justice: Why Countering Violent Extremism Programs are Bad Policy are also included. A special Research paper addressing the following questions; Using contemporary examples, identify and discuss emerging or persistent challenges that security and intelligence agencies face in combatting terrorism and defending homeland. Finding out the short (1-3 years), medium (3-5 years) and long term (5 years and above) threats posed by non-state actors. (The aviation industry of US is used to address the question) Chapter: 8- Countering Religiously-Motivated Terrorism in Southeast Asia. Issues and Challenges. The essays under this chapter are; The Evolving Landscape of Saffron Terrorism: Is it Terrorism or Retaliation; Should we Counter it? Are Lone-wolf Terrorists really Alone? The Mindset of Suicide Terrorists. Chapter: 9- Conflicts in the Digital Age: Information Operations and Cyber Warfare. The essays

under this chapter are; A well analysed critique paper for the article written by Mr. Michael Warner titled 'Intelligence in Cyber and Cyber in Intelligence' published by Georgetown University Press. Op-Ed: The Future of Policing A Suggested Policy Memo for Improving the Cybersecurity by Romania's National Cyber Security Directorate. Note: All the chapters have proper introduction. The publication is based on real world geopolitical happenings which is subjected to change from time to time. The essays were written during mid 2021 to mid 2022 time period. All the articles were carefully fact-checked and were right at the time of publication. About the Author: Anirudh Phadke is the founder and editor of the research company/organisation known as 'The Viyug'. He holds a Master of Science (Strategic Studies) degree from S.Rajaratnam School of International Studies (RSIS), Nanyang Technological University (NTU), Singapore. He completed his Bachelors Degree in Defence & Strategic Studies at Guru Nanak College (Autonomous), Chennai (India). He also holds a certificate in Terrorism Studies from RSIS, NTU. Publisher: The Viyug

Writing Research Papers

Across the Curriculum Sep 28

2022 Designed as a self-contained guide, this clear and efficient handbook takes students through the steps and strategies of writing research papers in many disciplines. It introduces two documentation styles for the humanities and two for the social and natural sciences, giving instructors tremendous flexibility in adapting the guide to discipline-specific assignments. Set apart by its appreciation of the experiences of real people undertaking research, this substantially revised fourth edition also focuses on the critical thinking processes essential to research and writing. The new edition is written in a personal, sensible first-person voice that speaks directly to students.

Academic Research Systems

Nov 18 2021 This book is a comprehensive examination system. However, for-profit college students should have approved writing and are

habituated on training. It's been a proportion of constitutional that organized authored journal. Its guidelines are recovering of the microelectronic redundant vacating as an organization concerning reservation of the circumstantial as well as for-profit colleges journal and research documents. However, this is a new tactic. Many college students are not regular in study and use daily journal and researches. This book is systematically superfluous in State of Somalia College and in African colleges. There were no past studies in primary and high schools for journal and research. For-profit college journals, however, were present, as well as student-building professional academics. You must have those structures daily, if God wills you.

Online Dispute Resolution - Research Papers Collections Nov 26 2019 Globalization has been a great stimulation in the process of integration of economies and societies of different countries across the

globe. It has been a great tool for breaking economic barrier and envisioning world as a market for trade. In the modern techniques of dispute resolution of commercial conflicts, emphasis has drifted from litigation to arbitration. The Concept of Online Dispute Resolution & E-Courts is essential part of Digital-India. Electronic filing, already in use in a number of courts, is a topic of discussion in many jurisdictions. We are on the road to the virtual courtroom. Unless we take an intentional early exit elsewhere, our final destination is clear. The virtual courtroom is unlikely to replace our traditional courts and tribunals buildings in the near future, but even those traditional places of law and judgment will see increasing amounts of virtual evidence and adjudication. Online Dispute Resolution is clearly moving into the mainstream, both around the world and in India. This Book is about the Collection of Internationally Published Research Papers on Online Dispute Resolution (ODR), Virtual Courts, Online Arbitration, E-Justice, E-Cheque, Video Conferencing, Information Technology etc. while doing my PhD Research on ODR. This Book is useful for Law Students, Law Professionals and ODR Researchers and Practitioners. I hope that the Law Scholars, Researchers and Law Professionals would receive these research papers helpful. [Writing Human Factors Research Papers](#) Oct 06 2020 It is one thing to write a good scientific paper; it is quite

another thing to get it published. Don Harris draws upon nearly a quarter of a century of experience as an author and reviewer of research papers, and ultimately as a journal editor. By his own admission, it contains all the things he wished that his mentors had told him 25 years ago, but did not. The material in the book is drawn from many years of finding all these things out for himself.
