A profile of policies and practices for limited English proficient students screening methods, program support, and teacher training (SASS 1993-94) Mar 12 2021

High-Stakes Testing Sep 05 2020 The federal government's No Child Left Behind Act has thrust high-stakes testing - its goals, methods, and consequences - into the educational limelight. The four-fold purpose of this book is to: describe the nature of high-stakes testing; identify types of collateral damage that have attended the testing programs; analyze methods different groups of people have chosen for coping with the damage and suggest lessons to be learned from the high-stakes-testing experience. The six groups of people whose coping strategies are inspected include: politicians and their staffs; educational administrators and their staffs; parents and the public; test makers and test administrators; teachers and students. Importantly, the author avoids aligning himself with the test-bashing rhetoric of those who oppose high-stakes testing, especially the No Child Left Behind Act. Key features of this outstanding new book include: illustrative cases. The book offers more than 350 cases of collateral damage from high-stakes testing--and people's coping strategies--as reported in newspapers over the 2002-2004 period. background perspectives. Part I examines the influence of high-stakes testing on: 1) what schools teach; 2) how student progress is evaluated; 3) how achievement standards are set; and 4) how test results are used.

participant responses. Part II, which is the heart of the book, devotes a separate chapter to the coping strategies of each of the major participants in the high-stakes testing movement: politicians and their staffs, educational administrators and their staffs, parents and the public, test-makers and test-givers, teachers, and students. summary chapter. The last chapter (Lessons to Learn) offers suggestions for minimizing collateral damage by adopting alternative approaches not used in the creation of our current high-stakes testing programs, particularly the federal government's No Child Left Behind Act. This book is appropriate for any of the following audiences: students taking evaluation or administration courses in schools of education, inservice administrators and teachers, policy makers, and those members of the general public who are concerned about the fate of schooling in America.

Translanguaging in Science Education Feb 08 2021 This edited volume explores diverse translanguaging practices in multilingual science classrooms in Hong Kong, Lebanon, Luxembourg, South Africa, Sweden and the United States. It presents novel opportunities for using students' home, first or minority languages as meaning-making tools in science education. It also invites to explore the use of language resources and other multimodal resources, such as gestures and body language. In addition, it discusses and problematizes contingent hindrances and obstacles that may arise from these practices within various contexts around the world. This includes reviewing different theoretical starting points that may be challenged by such an approach. These issues are explored from different perspectives and methodological focus, as well as in several educational contexts, including primary, middle, secondary levels,

higher education, as well as in after-school programs for refugee teenagers. Within these contexts, the book highlights and shares a range of educational tools and activities in science education, such as teacher-led classroom-talk, language-focused teaching, teachers' use of meta-language, teachers' scaffolding strategies, small-group interactions, and computer-supported collaborative learning.

Multilingualism and Language Diversity in Urban Areas
Aug 17 2021 This state-of-the-art volume provides an interdisciplinary overview of current topics and research foci in the areas of linguistic diversity and migration-induced multilingualism and aims to lay the foundations for interdisciplinary work and the development of a common methodological framework for the field. Linguistic diversity and migration-induced multilingualism are complex, multi-faceted phenomena that need to be studied from different, complementary perspectives. The volume comprises a total of fourteen contributions from linguistic, educationist, and urban sociological perspectives and highlights the areas of language acquisition, contact and change, multilingual identities, urban spaces, and education. Linguistic diversity can be framed as a result of current processes of migration and globalization. As such the topic of the present volume addresses both a general audience interested in migration and globalization on a more general level, and a more specialized audience interested in the linguistic repercussions of these large-scale societal developments.

1993-94 Schools and Staffing Survey: Survey documentation Jan 10 2021

Language and Languages Jun 02 2020 The emergence of

globalisation is bringing massive changes to all aspects of life, including language. In an effort to raise awareness on the effects of globalisation on language learning and teaching, the Applied Linguistics Association of Australia (ALAA) devoted its 31st Annual Congress to this theme. This volume represents a collection of papers by academics in Australia, South-East Asia, New Zealand, Europe and North America, which synthesize language learning and teaching theories and current research to present the views of applied linguists and language educators on a variety of issues with regards to the tensions that globalisation and internationalisation bring on language and languages. A total of twenty-two articles discuss issues related to the status of the ELT profession in a globalised world, issues of ESL teaching and language assessment, the ever increasing use of ICTs for foreign language learning, and the effects of globalisation on minority languages. This collection of articles attempts to integrate theoretical issues, research findings, and practical applications on different aspects of TESOL to provide academics, researchers, students and language educators with a discussion of the current state of affairs in the field of applied linguistics with regards to globalisation.

Assessing Academic Literacy in a Multilingual Society

Mar 31 2020 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and, to a much lesser extent, Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult

enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students, not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Effective Learning and Teaching of Writing Dec 29 2019

Effective Learning and Teaching of Writing is a handbook on research on the effective teaching and learning of writing. It is a reference for researchers and educators in the domain of written composition in education. Effective Learning and Teaching of Writing covers all age ranges and school settings and it deals with various aspects of writing and text types. Research methodology varies from experimental studies to reflective classroom practitioners' research. This new volume in the series Studies in Writing brings together researchers from all kinds of disciplines involved in writing research and countries in their endeavour to improve the teaching of written composition. It is the result of co-operation of researchers all over the world and shows that in spite of the differences in educational regions over the world, research in writing shares similar problems, and tries to find answers, and generate new questions. The body of knowledge in this volume will inspire researchers and teachers to improve research and practice.

Educating Emergent Bilinguals Oct 26 2019 This comprehensive and insightful book shows how present educational policies and practices to educate language minority students in the United States ignore an essential characteristic their emergent bilingualism. Expanding on a popular report supported by the Campaign for Educational Equity (Teachers College), this accessible guide compiles the most up-to-date research findings to demonstrate how ignoring childrens bilingualism perpetuates inequities in their schooling. What makes this book truly useful is that it offers a thorough description of alternative practices that would transform our schools and students futures, such as building on students home languages and literacy practices in schools, curricular and pedagogical innovations, new approaches to parent and community engagement, and adoptive assessment tools.

SASS and PSS Questionnaires, 1993-1994 May 14 2021

Language Diversity in the Sinophone World May 26 2022 Language Diversity in the Sinophone World offers interdisciplinary insights into social, cultural, and linguistic aspects of multilingualism in the Sinophone world, highlighting language diversity and opening up the

burgeoning field of Sinophone studies to new perspectives from sociolinguistics. The book begins by charting historical trajectories in Sinophone multilingualism, beginning with late imperial China through to the emergence of English in the mid-19th century. The volume uses this foundation as a jumping off point from which to provide an in-depth comparison of modern language planning and policies throughout the Sinophone world, with the final section examining multilingual practices not readily captured by planning frameworks and the ideologies, identities, repertoires, and competences intertwined within these different multilingual configurations. Taken together, the collection makes a unique sociolinguistic-focused intervention into emerging research in Sinophone studies and will be of interest to students and scholars within the discipline.

Understanding Test and Exam Results Statistically Jun 26
2022 This book shares the goal of the classic text *How to Lie with Statistics*, namely, preventing and correcting statistical misconceptions that are common among practitioners, though its focus is on the educational context. It illustrates and discusses the essentials of educational statistics that will help educational practitioners to do this part of their job properly, i.e., without making conceptual mistakes. The examples are cast in the school/classroom contexts, based on realistic rather than theoretical examples. “ The strongest aspect of the work or author ’ s view is that the author can put himself in the shoes of teachers and make the work a very practical guide for teachers and school leaders. As a very experienced educator and researcher, the author knows very well about the knowledge skills that are essential for the professional development of teachers. He is able to explain the statistical and measurement concepts in plain language and with examples that are highly relevant to the target audience. In

addition, the author also conveyed an important message to the target audience throughout the work... by pointing out the mistakes and misunderstandings of the interpretation of test scores and measurement design. The author reminds the audience about the importance of proper use of tests and test scores when teachers and school leaders make any education decisions, which has much implication on the professional integrity of teachers and school leaders. ” Dr. Joyce Kwan, The Education University of Hong Kong, Hong Kong “ This book covers all the statistical tools for analyzing educational data and provides examples to explain the ideas. Chapters 10-17 are practical data analysis in educational data that helps readers have a better understanding of the procedure to analyze the data. ” Dr. Alpha Ling, The Education University of Hong Kong, Hong Kong “ It looks like a very interesting book with attractive topics and practical problems in educational statistics. Though the topics remind me of the classic book How to Lie with Statistics, this book aims at preventing and correcting statistical misconceptions in educational context. ” Dr. Zhu Ying, National Institute of Education, Nanyang Technological University, Singapore

The School Psychologist's Guide for the Praxis Exam, Third Edition Jan 28 2020 Print version of the book includes free access to the app (web, iOS, and Android), which offers interactive Q&A review plus the entire text of the print book! Please note the app is included with print purchase only. Written by an award-winning practicing school psychologist, this thoroughly updated edition reflects the 2015 version of the Praxis Exam in School Psychology. Noted for its concise and efficient outline style with visual keys that indicate what is most important and what needs

extra study time, this guide has already helped thousands pass the exam. The bulleted key concepts and lists versus long, drawn-out paragraphs present information in easily digestible segments without sacrificing key information needed to pass the exam. Invaluable study suggestions better prepare readers and build their confidence prior to exam time. Highlights of the new edition include:

- Reorganized to conform to the four major content areas of the updated 2015 exam
- Two new practice exams with 280 reworked sample questions and detailed answers that are similar in style and content to the actual items found in the Praxis exam to maximize success
- Covers school neuropsychology and traumatic brain injury, two topics that are not major domains on the current test, but which provide critical information to help strengthen success rate
- New Concepts to Remember lists at the end of each content chapter summarize the key points and review additional concepts that are especially helpful to review 2 weeks prior to exam time
- New Study and Test-Tasking Strategies and Insider Tips boxes based on feedback from recent test takers provide tips for studying for and passing the exam from all levels of test-takers
- Updated information on threat and risk assessment, pediatric brain injury and school supports, the DSM-5, school neuropsychological practices and policies
- New key at the beginning of the answer section that links the categories referenced in the answer to the appropriate content chapter for ease of use
- Aligns with "best practices" and recommendations from the National Association of School Psychologists (NASP)

With a proven track record of success that has already helped thousands pass the exam, Dr. Thompson was named Colorado School Psychologist of the Year in 2013. Anyone planning to take

the Praxis exam including master 's or doctoral school psychology students and practicing professionals will benefit by studying for this critical exam using this book.

Exam Success in First Language English for Cambridge IGCSE Jan 02 2023 Focused on grade improvement, this Exam Success Guide brings much-needed clarity to exam preparation, equipping students to achieve their best in their IGCSE assessments, and beyond. This guide allows students to recap and review key course content, apply their knowledge, and hone exam techniques. It also includes examiner tips, 'Raise your grade' advice and exam-style practice to ensure your students are exam-ready. Focus on South Africa Aug 24 2019 This volume brings together a range of studies on various aspects of English and its use in Southern Africa. Experts in their field have written chapters on topics including the history and development of English in South Africa, the characteristics of particular pan-ethnic varieties of English which have evolved in South Africa (including black, Indian and colored varieties) as well as the unique features of the English of South Africa's southern neighbours: Swaziland, Zimbabwe, Zambia and Malawi. Other contributions focus on English in relation to issues such as standardisation, lexicography, education, language planning, language attitudes and interaction patterns. The book will be of primary interest to students of linguistics and language, but should also be relevant to educationists, sociologists and historians.

Teaching Practices and Language Ideologies for Multilingual Classrooms Dec 09 2020 While standard language ideology (SLI) is harmful in its exclusion of minorities through expression of language and race, translingualism provides a positive scaffolding characterized by the disposition of openness. Translingualism suggests that each utterance creates meaning and is a direct rebellion against SLI. It privileges unprivileged varieties of English over so-called Standard English. In order to combat SLI, scholars have emphasized the need for congenial multicultural spaces where students can use their cultural and linguistic resources as an asset and which supports the idea of students learning from each other through their diversity. Teaching Practices and Language Ideologies for Multilingual Classrooms is an essential scholarly publication that examines the educational necessities for diverse

student populations and multilingual students and provides rich teaching resources for guiding the creation of classroom environments that engage multilingual students and support their writing and problem-solving skills. Featuring a range of topics such as ethics, code-switching, and language education, this book is ideal for teachers, instructional designers, academicians, sociologists, administrators, language professionals, researchers, and students.

Language Contact and Language Conflict in Arabic Jul 28 2022 This book contains 17 studies by leading international scholars working on a wide range of topics in Arabic socio-linguistics, divided into four parts. The studies in Part 1 address questions of national language planning in a

diglossic situation, with a particular focus on North Africa. Part 2 explores the relationship of identity and language choice in different Arabic-speaking communities living both within and outside the Arab World. Part 3 examines language choice in such diverse contexts as popular preaching, humour and Arab women's writing. Part 4 contains 5 papers in which variation, code-switching and generational language shift in the Arabic-language diaspora in Europe and the USA are the focus. The collection as a whole provides wide-ranging introduction to key areas of current research, which will be of interest to the general sociolinguist as well as the Arabic language specialist.
