**The Conservation and Presentation of Mosaics: At What Cost?** Sep 29 2022 In recent years, funding for the conservation of cultural heritage has become increasingly difficult to obtain, and this trend shows no

sign of changing significantly in the foreseeable future. The twelfth triennial meeting of the International Committee for the Conservation of Mosaics, held in Sardinia in October 2014, focused on the theme of cost, broadly considered, relating specifically to the preservation and presentation of the world's mosaic heritage. This handsome, abundantly illustrated volume provides a comprehensive record of the conference. The volume's sixty-seven papers and posters, comprising contributions from more than one hundred leading experts in the field, reflect the conference's principal themes: cost, methods of survey and documentation, conservation and management, education and training, backing materials and techniques, presentation and display, and case studies. Papers are presented either in English, French, or Italian; there are abstracts in English and either French or Italian for all entries. The volume will be of interest to conservators, site managers, and others responsible for conserving the mosaic heritage, especially in these challenging times.

**Modes of Censorship** Jul 16 2021 Modes of Censorship and Translation articulates a variety of scholarly and disciplinary perspectives and offers the reader access to the widening cultural debate on translation and censorship, including cross-national forms of cultural fertilization. It is a study of censorship and its patterns of operation across a range of disciplinary settings, from media to cultural and literary studies, engaging with often neglected genres and media such as radio, cinema and theatre. Adopting an interdisciplinary and transnational approach and bringing together contributions based on primary research which often draws on unpublished archival material, the volume analyzes the multi-faceted relationship between censorship and translation in different national contexts, including Italy, Spain, Great Britain, Greece, Nazi Germany and the GDR, focusing on the political, ideological and aesthetic implications of censorship, as well as the hermeneutic play fostered by any translational act. By offering innovative methodological interpretations and stimulating case studies, it proposes new readings of the operational modes of both censorship and translation. The essays gathered here challenge current notions of the accessibility of culture, whether in overtly ideological and politically repressive contexts, or in seemingly 'neutral' cultural scenarios.

des technischen und medizinischen Fortschritts nicht mit der Geschwindigkeit von Gesetzgebung und Gesetzesänderungen deckt. Die Verfasserin hat es sich zur Aufgabe gemacht, die aktuellen strafrechtlichen Fragestellungen im Zusammenhang mit der Praimplantationsdiagnostik aufzuarbeiten und Lösungsvorschläge für die rechtlich wie moralisch konfliktbelastete Thematik zu entwickeln. Sie geht ausführlich auf die derzeitige Rechtslage in Deutschland ein. Hierbei werden insbesondere auch vermeintliche Alternativen zur Praimplantationsdiagnostik untersucht und strafrechtlich bewertet. Auch die rechtliche Behandlung der Praimplantationsdiagnostik in Italien findet Berücksichtigung, wobei insbesondere das im Februar 2004 in Kraft getretene Gesetz zur Regelung der technisch assistierten Fortpflanzung sowie die einschlägige Rechtsprechung analysiert werden. Vor dem Hintergrund der italienischen Regelung und der damit verbundenen praktischen Erfahrungen werden Anregungen auch für die deutsche Gesetzgebung formuliert und aufgezeigt, dass angesichts der herrschenden Rechtsunsicherheit eine explizite Regelung fortpflanzungsmedizinischer Methoden, insbesondere der Praimplantationsdiagnostik, unabdingbar ist.

What Is the Truth About the Great Recession and Increasing Inequality? Aug 29 2022 Have you ever puzzled over the causes of the 2007-8 financial crisis and wondered how it will affect all our futures? If so, this book is for you. Using imagined dialogue between three economists with contrasting theoretical perspectives and a student who knows little about economics, different interpretations are compared in straightforward, jargon-free language. The book explores both the consequences of neoliberal economic policies based on the belief in efficient, self-regulating markets and the implications of alternative economic visions formulated in response to the Great Recession. In all, nine dialogues are presented, each of which focuses on a key theme: increasing inequality, the failure of economists to predict the crash, the reasons for fiscal austerity, the rolling back of the welfare state, the roles of the state and the market, the repercussions of the German trade surplus and the Eurozone crisis, policies to confront the crisis, environmental degradation, and the need for an industrial policy appropriate to the present day. The book will be ideal for both general readers and those embarking on the study of economics.

**Sehen und Entdecken** Jun 26 2022 In den letzten Jahren ist man zu der Überzeugung gelangt, dass bildbasiertes Lernen und Lehren angesichts der rapiden Entwicklung visueller Kommunikationsmöglichkeiten unserer heutigen Mediengesellschaft außerordentlich an Bedeutung gewonnen hat. Visual literacy als Fähigkeit des angemessenen Umgangs mit visuell vermittelten Informationen ist dabei nicht nur zur Schlüsselkompetenz von Lernenden avanciert, sondern umfasst auch die Vermittlungskompetenz von Lehrenden. Die Beiträge dieses Bandes setzen sich aus aktueller Forschungsperspektive und mit Bezug auf den schulischen und hochschulischen DaF-Unterricht in Italien und Deutschland mit diesen Fragestellungen auseinander. A fronte del rapidissimo sviluppo delle possibilità comunicative visuali raggiunto

negli ultimi anni dai media nella società contemporanea, l'apprendimento e l'insegnamento basati sulle immagini hanno guadagnato una rilevanza straordinaria. La visual literacy in quanto capacità di un uso appropriato delle informazioni trasmesse attraverso le immagini è divenuta non solo una competenza chiave di chi apprende bensì anche una competenza didattica di chi insegna. I contributi di questo volume si confrontano con tali problematiche secondo le più attuali prospettive scientifiche del DaF, investendo sia il settore della scuola che quello universitario in Italia e in Germania. Although the neoavanguardia movement has been primarily defined and examined in a literary context, it is broadly discussed in this collection as also affecting other artistic forms such as the visual arts, music, and architecture. In examining this often controversial movement, Neoavanguardia's contributors include topics such as critical-theoretical debates, the crisis of literature as defined within the movement, and issues of gender in 1960s Italian art and literature. This important collection interrogates the arts as creative codes, their ability to question reality, and their capacity to survive. In so doing, it paves the way for future interdisciplinary investigations of this complex cultural formation.

**The "numbers" of Molise mountain municipalities (Italy)** Mar 12 2021 This research focusses attention on the social-demographic, agricultural and tourist aspects of the 29 municipalities of the Molise Region, in order to provide new elements and details in a distributive and diachronic analysis and underline the link between new data and old problems which require collective actions to reach common purposes and to enhance the local resources according to the different vocations. After the examination of numerous statistical data which are also represented through GIS elaborations, quality of products and processes, multi-functional and inter-sectorial relationships, fast and slow scenarios, new or renewed forms of tourism accommodation, internet and tourist social technologies, social agriculture and neo-agrarianism, slow and creative tourism, the high environmental quality, enriched by historical and cultural heritage, become some of the keywords around which the geographical analysis is conducted. The present study seeks both to provide useful input for a meticulous and weighted planning, according to a resource-based approach, and to define a reference framework for people who are no longer live in Molise Region and Italy, but who are still emotionally attached to their native lands and keep alive the memories for their origins or for the origins of their parents.

*Der Affekt der Ökonomie* Dec 01 2022 Die Metapher «Affektökonomie» hat Hochkonjunktur in der aktuellen Theoriebildung. Das Kompositum ist indessen problematisch, führt es doch zwei sich widerstrebende Begriffe zusammen: den Affekt, der sich qua emotionalem Grundimpuls willkürlich jeder Herrschaft widersetzt und die Ökonomie, die für das gesetzmäßige Haushalten steht. Die Theorie-Metapher Affektökonomie verdeckt also ihre

grundlegende Paradoxie: die Beiträge hinterfragen deshalb die theoretische und metaphorologische Bedingtheit und die Grenzen dieser Konstellation. Dies ist umso wichtiger, als es sich bei der Affektökonomie um eine Leitmetapher für die Funktion von Literatur handelt, die im Zusammenspiel mit dem modernen, politischökonomischen Regime entsteht. Diese ist, dass ökonomische Strukturen in Texten affektiv besetzt und erzählerisch spekulativ hintertrieben werden. Gefragt wird nach einer anderen Poetik der ästhetischen Moderne, die sich nicht von der großen politischen Revolution von 1789 aus schreibt, sondern von jenem Wissenstransfer um 1800 aus, der die antike Haushaltungslehre im Zeichen der Metapher Neubestimmt: und dies nicht nur im Sinne von Sachverhalten und Gegenständen, sondern vor allem auch mit Blick auf die persönlich-affektiven Beziehungen.

**Italian Democracy** Sep 05 2020 This textbook, from one of Italy's most eminent scholars, provides broad coverage and critique of Italian politics and society. Providing the readers with the knowledge necessary to understand the working of the Italian political system, it also offers answers to some of the most important challenges facing the country - and other contemporary democracies - today, such as populism, anti-politics and corruption. Critical but underpinned by thorough data and analysis, it presents alternative views alongside the author's interpretation. Crucially, the book uses a comparative

framework to explain Italy's transformation and evaluate its performance. Comparing the rules, institutions, parties and actors at work in the most important European political systems - France, Germany, Great Britain - with those in Italy, the Italian context is better understood and assessed in contrast. This text will be essential reading for students and scholars of Italian politics and European politics, and more broadly for comparative politics and democracy.

The Rhetoric of Violence and Sacrifice in Fascist Italy Nov 19 2021

The Italian fascists under Benito Mussolini appropriated many aspects of the country's Catholic religious heritage to exploit the mystique and power of the sacred. One concept that the regime deployed as a core strategy was that of "sacrifice." In this book, Chiara Ferrari interrogates how the rhetoric of sacrifice was used by the Italian fascist regime throughout the interwar years to support its totalitarian project and its vision of an all-encompassing bond between the people and the state. The Rhetoric of Violence and Sacrifice in Fascist Italy focuses on speeches by Benito Mussolini and key literary works by prominent writers Carlo Emilio Gadda and Elio Vittorini. Through this investigation, Ferrari demonstrates how sacrifice functioned in relation to other elements of fascist rhetoric, such as the frequent reiterations of an impending national crisis, the need for collaboration among social classes, and the forging of social contact between the leader and the people.

**The Value of Money** Jan 02 2023 Thanks to the collaboration with renowned economists and policymakers, the publication compares Italian and German macro-economic cultures and performances. When the Bretton Woods system crumbled and currencies lost their direct link to the dollar and their indirect link to gold, these two countries embarked upon strongly different monetary policies. This divergence was reflected in the evolution of the exchange rates: the value of one D-Mark increased from 170 Italian lira under Bretton Woods to 990 Italian lira at the start of European Monetary Union: an astounding devaluation of about 85 per cent for the lira! Firstly, the volume describes the German and the Italian economic and, specifically, monetary models, with major attention paid to institutions such as

Deutsche Bundesbank and Banca d'Italia, analysing their development in a diachronic perspective. Secondly, these paradigms are contextualized within a broader European context, which is fundamental to reflect upon possible future scenarios. Das Buch versammelt renommierte Ökonomen und Politiker, hauptsächlich (aber nicht nur) aus Italien und Deutschland. Die Autoren vergleichen die makroökonomischen Kulturen und die Leistungsfähigkeit der beiden Länder. Seit dem Zusammenbruch des Bretton-Woods-Systems verfolgen beide Länder sehr unterschiedliche Geldpolitiken. Die Divergenz spiegelte sich auch in der Entwicklung der Wechselkurse: Der Wert der D-Mark stieg von 170 italienischen Lire unter Bretton Woods-Bedingungen auf 990 italienische Lire zu Beginn der Europäischen Währungsunion - eine atemberaubende Abwertung der Lira um rund 85 Prozent! Der Sammelband beschreibt das deutsche und das italienische Wirtschafts- und insbesondere das Geldmodell.

Institutionen wie die Bundesbank und die Banca d'Italia stehen im Zentrum. Der historische Hintergrund wird ebenfalls ausgeleuchtet. In einem zweiten Schritt werden diese Modelle in einem breiteren europäischen Kontext analysiert, auch um mögliche künftige Szenarien aufzuzeigen. Mit Beiträgen von: Pierluigi Ciocca, Lorenzo Codogno, Fabio Colasanti, Federico Fubini, Daniel Gros, Otmar Issing, Harold James, Hans-Helmut Kotz, Ivo Maes, Klaus Masuch, Thomas Mayer, Stefano Micossi, Pier Carlo Padoan, Francesco Papadia, Lucio PENCH, Tobias Piller, André Sapir, Gunther Schnabl, Ludger Schuhknecht, Sabine Seeger, Giulio Tremonti, Gertrude Tumpel-Gugerell. *The Science of Composting* Jan 22 2022 The European Union initially demonstrated its interest in waste in the late 70s with the programme on Waste Recycling Research and Development. At that time composting was only present as a coordination activity and it was only later that specific research programmes in the area were within Europe which was largely instrumental in setting up a series of European conferences, seminars and work shops. Some of these have resulted in publications which have made significant contributions to developments in the understanding of composting and the use of composts. In particular the outputs from meetings in Oxford ( 1984), Udine (1986), Neresheim ( 1988) and Angers ( 1991) are worthy of note. Composting has seen significant changes since the 70s when the major thrust in Europe was using mixed municipal solid waste as a feed material. Many composting plants which were built to use this material were closed due to the poor quality of the compost which made it very difficult to market. As a result the main areas of interest, as far as the municipalities are concerned, are now with biowaste and source-separated organics. This interest is apparent from the many new plants which are being constructed across Europe, and the ready market which exists for the products. In parallel with the renewed interest of the municipalities other areas, such as agriculture and the wastewater treatment industries, are also developing their own schemes.

**Cooperative edilizie** Jul 28 2022 Il volume affronta con taglio operativo la disciplina fiscale, contabile e civilistica delle cooperative

edilizie, e costituisce un valido supporto per i professionisti e per coloro che operano nel settore. La struttura dell'opera segue l'ordine consequenziale della vita di una cooperativa; si parte dall'analisi della sua costituzione, con particolare attenzione: alla scelta della tipologia (a proprietà divisa o indivisa) alla figura del socio che nelle cooperative edilizie assume una posizione specifica ai finanziamenti per poi passare all'esame degli aspetti legati alla sua gestione, soffermandosi su: programma costruttivo libri e registri contabili, fiscali e sociali gestione finanziaria chiusura di un lotto vigilanza fase liquidatoria agevolazioni Tutta la trattazione è supportata da schemi, raffronti tra le diverse tipologie di cooperative e tracce di compilazione di verbali. Completa il volume una ricca Appendice che raccoglie i principali interventi normativi, di prassi e giurisprudenza in materia. *Diplomacy and the Aristocracy as Patrons of Music and Theatre in the Europe of the Ancien Régime* Dec 09 2020 This volume explores the dense networks created by diplomatic relationships between European courts and aristocratic households in the early modern age, with the emphasis on celebratory events and the circulation of theatrical plots and practitioners promoted by political and diplomatic connections. The offices of plenipotentiary ministers were often outposts providing useful information about cultural life in foreign countries. Sometimes the artistic strategies defined through the exchanges of couriers were destined to leave a legacy in the history of arts, especially of music and theatre. Ministers favored or promoted careers, described or made pieces of repertoire available to new audiences, and even supported practitioners in their difficult travels by planning profitable tours. They stood behind extraordinary artists and protected many stage performers with their authority, while carefully observing and transmitting precious information about the cultural and musical life of the countries where they resided.

**The Basilica of Saint John Lateran to 1600** Jun 14 2021 The Archbasilica of St John Lateran is the world's earliest cathedral. A Constantinian foundation pre-dating St Peter's in the Vatican, it remains the seat of the Bishop of Rome, the Pope, to this day. This volume brings together scholars of topography, archaeology, architecture, art history, geophysical survey and liturgy to illuminate this profoundly important building. It takes the story of the site from

the early imperial period, when it was occupied by elite housing, through its use as a barracks for the emperor's horse guards to Constantine's revolutionary project and its development over 1300 years. Richly illustrated throughout, this innovative volume includes both broad historical analysis and accessible explanations of the cutting-edge technological approaches to the site that allow us to visualise its original appearance.

**La normativa antiriciclaggio e antiterrorismo per i professionisti** Sep 25 2019 Il tema è di grande attualità, come ben esplicitato nel titolo, non soltanto per i Notai ma per tutti i Professionisti. Poiché le disposizioni in esame hanno origine e sviluppo da un contesto avviatosi sul piano della normativa comunitaria, il volume inizialmente illustra il panorama dell'attuale scenario internazionale e comunitario della lotta al riciclaggio, per poi esaminare accuratamente il versante nazionale delle nuove norme. Le direttive europee svolgono dunque il ruolo di "normazione comunitaria" di vertice che oggi ha trovato recepimento in Italia con il D.Lgs. n. 231 del 21 novembre 2007.

Inclusive Education Aug 17 2021 Starting in the 1970s, the Italian government has passed a set of legislative provisions known as integrazione scolastica. Separate special education classes were abolished and all students were admitted into mainstream schools, regardless of any disability, impairment, or any other personal characteristic or social circumstance. The Italian model seems to be an ideal context for the development of inclusive education when compared to other realities in Europe and in the world, where, in some cases, special schools and/or classes are still the only available options for students with disabilities or impairments. Does such perception correspond to reality? This book aims to critically analyse and discuss the Italian model of inclusive education from international and intercultural perspectives, as a way to address a crucial theme for educators, school administrators, policymakers, citizens and parents. Mothers of Invention Oct 07 2020 In the Mother of Invention in their analyses of literature, painting, sculptures, film, and fashion, the contributors explore the politics of invention articulated by these women as they negotiated prevailing ideologies.
