The Population, Resources, Environment & Development Databank (PRED Databank version 2.1) presents data series dealing with various aspects of population, the labour force, economic growth, agriculture, & natural resource use & their trends from 1961 to 1990. The PopMap Retrieval System (PopMap version 3.01), which accompanies the database, makes it possible to generate thematic maps of PRED Bank variables, to manipulate data & save selected data in a choice of data formats. The first comprehensive guide in English to libraries and archives in Belgium, The Netherlands, and Luxembourg, this book gives humanities and social science researchers easy access to numerous important unexplored collections. The detailed entries fill the void between international directories (which provide minimal information) and country-specific guides in the vernacular (which are largely unknown to U.S. scholars). The thorough descriptions are based on selected on-site visits, direct correspondence with researchers, librarians, and archivists, and bibliographic research about the collections. Part I contains a 90-page, annotated bibliography covering five categories of publications: national bibliographies, union catalogs, biographical dictionaries, directories and guides to collections, and subject guides and bibliographies. Part II provides detailed descriptions of the principal research collections in Belgium, The Netherlands, and Luxembourg. The descriptions include basic

directory information, profiles and histories, notes on special collections, and details on regulations affecting access.

Institutional, subject, and author and title indexes are also provided. This book is an important research tool for national and academic libraries and archives, museums, scholars of social science, and Netherlandic studies, and European Community depository libraries. The first volume of Stem Cells deals with the fundamental principles that govern embryonic and somatic stem cell biology. Historically, the identification and characterization of such pathways and general rules of stemness occurred during embryonic development and Volume I reflects this with topics spanning cell cycle regulation, epigenetics, and a February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications; September issue includes List of depository libraries; June and December issues include semiannual index This book contains the refereed proceedings of the International Conference on Modeling and Simulation in Engineering, Economics, and Management, MS 2013, held in Castell ó n de la Plana, Spain, in June 2013. The event was co-organized by the AMSE Association and the SoGReS Research Group of the Jaume I University. This edition of the conference paid special attention to modeling and simulation in diverse fields of business management. The 28 full papers in this book were carefully reviewed and selected from 65 submissions. They are organized in topical sections on: modeling and simulation in CSR and sustainable development; modeling and simulation in finance and accounting; modeling and

simulation in management and marketing; modeling and simulation in economics and politics; knowledge-based expert and decision support systems; and modeling and simulation in engineering.
