Perspectives on International Law Jan 28 2020 In the spirit of the 50th anniversary of the United Nations and the United Nations Decade of International Law, the contributors to "Perspectives on International Law" honour with this legal treatise a devoted friend of the United Nations and international law, Judge Manfred Lachs - a noted judge, diplomat, humanist and, above all, teacher. The work includes a variety of perspectives on international law relating to what were Judge Lachs' four main areas of interest: the theory and practice of international law, the United Nations, the World Court, and space law. The book meets the need for a reference work covering selected subject areas and providing different perspectives on some of the key issues of current concern. Lawyering Europe Mar 31 2020 While scholarly writing has dealt with the role of law in the process of European integration, so far it has shed little light on the lawyers and communities of lawyers involved in that process. Law has been one of the most thoroughly investigated aspects of the European integration process, and EU law has become a well-established academic discipline, with the emergence more recently of an impressive body of legal and political science literature on 'European law in context'. Yet this field has been dominated by an essentially judicial narrative, focused on the role of the European courts, underestimating in the process the multifaceted roles lawyers and law play in the EU polity, notably the roles they play beyond the litigation arena. This volume seeks to promote a deeper understanding of European law as a social and political phenomenon, presenting a more complete view of the European legal field by looking beyond the courts, and at the same time broadening the scholarly horizon by exploring the ways in which European law is actually made. To do this it describes the roles of the great variety of actors who stand behind legal norms and decisions, bringing together perspectives from various disciplines (law, political science, political sociology and history), to offer a global multi-disciplinary reassessment of the role of 'law' and 'lawyers' in the European integration process.

Islamic Legal Revival Jun 14 2021 In this meticulously researched volume, Leonard Wood presents his ground breaking history of Islamic revivalist thought in Islamic law. Islamic Legal Revival: Reception of European Law and Transformations in Islamic Legal Thought in Egypt, 1879-1952 brings to life the tumultuous history of colonial interventions in Islamic legal consciousness during the nineteenth and early twentieth centuries. It tells the story of the rapid displacement of local Egyptian and Islamic law by transplanted European codes and details the evolution of resultant movements to revive Islamic law. Islamic legal revivalist movements strove to develop a modern version of Islamic law that could be codified and would replace newly imposed European laws. Wood explains in unparalleled depth and with nuance how cutting-edge trends in European legal scholarship inspired influential revivalists and informed their methods in legal thought. Timely and provocative, Islamic Legal Revival tells of the rich achievements of legal experts in Egypt who disrupted tradition in Islamic jurisprudence and created new approaches to Islamic law that were distinctively responsive to demands of the contemporary world. The story told bears important implications for understandings of

Egyptian history, Islamic legal history, comparative law, and deeply contested and highly transformative interactions between European and Islamic thought.

General Principles of EC Law in a Process of Development Sep 17

2021 What are the basic principles underlying European Community Law? Although no one seeks a purely descriptive answer to this question, the discussion it gives rise to is of immense significance both for theoretical legal studies and for legal practice. Over the years, scholars have convened from time to time to re-examine the question in the light of new developments. This important volume offers insights and findings of the latest such conference, held at Stockholm in March 2007, and sponsored by the Swedish Network for European Legal Studies. The nineteen essays here printed are all final author-edited versions of papers first presented at that conference. Far from merely an updating of the First Edition, which marked a 1999 conference held under the same auspices at Malmö, this book is entirely new. It underscores the importance of discovering the emergence of new general principles--linked, indeed, to such fundamental continuing concerns as democracy, accountability, transparency, direct effect, good administration, and European citizenship--as they develop in such increasingly important areas as the following: core aspects of competition and financial integration law; the ongoing process of European constitutionalization; the application of general principles in the new Member States; the growth of European private law; the successive creation of a *jus commune europaeum*; and the instrumental function of the EC Court. There is also special consideration attached to such overriding issues as the gap-filling function of the principles within the Community legal system, and the implications of the use of a comparative

methodology. The authors include both eminent, well-known experts, many of whom took part in the 1999 Conference, and representatives of a new generation of younger scholars in the field. For the myriad parties involved in the evolution of the European project from a legal perspective, this book serves as a watershed, a thorough inspection of the foundations as they are perceived and understood at the present moment. It is sure to be consulted and cited often in the years to come.

General Principles of European Private International Law Aug 17 2021 European private international law, as it stands in the Rome I, II, and III Regulations and the recent Succession Regulation, presents manifold risks of diverging judgments despite seemingly harmonised conflict of law rules. There is now a real danger, in light of the rapid increase in the number of legal instruments of the European Union on conflict of laws, that European private international law will become incoherent. This collection of essays by twenty noted scholars in the field sheds clear light on the pivotal issues of whether a set of overarching rules (a 'general part') is required, whether an EU regulation is the adequate legal instrument for such a purpose, which general questions such an instrument should address, and what solutions such an instrument should provide. In analysing the possible emergence of general principles in European private international law over the past years, the contributors discuss such issues and factors as the following: - the relationship between conflict of laws and recognition; - the room for party autonomy; - the concept of habitual residence; - adaptation when interplay between different laws leads to deadlock; - public policy exceptions; - the desirability of a general escape clause; - the classic topics of characterisation, incidental question, and renvoi; and - right to appeal in case of errors in the application of foreign law. Practitioners dealing with these notoriously difficult cases will welcome this in-depth treatment of the issues, as will interested policymakers throughout the EU Member States and at the EU level itself. Scholars will discover an incomparable comparative analysis leading to expert recommendations in European private international law, opening the way to an effective European framework in this area.

Chance, Order, Change: The Course of International Law, General Course on Public International Law Nov 07 2020 Also available as an e-

book *Chance, Order, Change: The Course of International Law, General Course on Public International Law* by J. Crawford The course of international law over time needs to be understood if international law is to be understood. This work aims to provide such an understanding. It is directed not at topics or subject headings – sources, treaties, states, human rights and so on – but at some of the key unresolved problems of the discipline. Unresolved, they call into question its status as a discipline. Is international law “law” properly so-called? In what respects is it systematic? Does it – can it – respect the rule of law? These problems can be resolved, or at least reduced, by an imaginative reading of our shared practices and our increasingly shared history, with an emphasis on process. In this sense the practice of the institutions of international law is to be understood as the law itself. They are in a dialectical relationship with the law, shaping it and being shaped by it. This is explained by reference to actual cases and examples, providing a course of international law in some standard sense as well.

Legal Writing, Legal Practice Dec 01 2022 Prescriptive law writings rarely mirror the ways a society practices law, a fact that raises special problems for the social and legal historian. Through close analysis of the laws of bailment (i.e., temporary safekeeping) in Exodus 22, Yael Landman probes the relationship of law in the biblical law collections and law-in-practice in ancient Israel and exposes a vision of divine justice at the heart of pentateuchal law. Landman further demonstrates that ancient Near Eastern bailment laws continue to influence postbiblical Jewish law. This book advances an approach to the study of biblical law that connects pentateuchal and ancient Near Eastern law collections, biblical narrative and prophecy, and Mesopotamian legal documents and joins philological and comparative analysis with humanistic legal approaches, in order to access how people thought about and practiced law in ancient Israel.

General Defences in Criminal Law Aug 05 2020 The law relating to general defences is one of the most important areas in the criminal law, yet the current state of the law in the United Kingdom reveals significant problems in the adoption of a consistent approach to their doctrinal and theoretical underpinnings, as exemplified by a number of recent developments in legislation and case law. A coherent and joined-up approach is still missing. This volume provides an analysis of the main contentious areas in British law, and proposes ways forward

for reform. The collection includes contributions from leading experts across various jurisdictions. Part I examines the law in the United Kingdom, with specialist contributions on Irish and Scottish law. Part II consists of contributions by authors from a number of foreign jurisdictions, all written to a common research grid for maximum comparability, which provide a wider background of how other legal systems treat problems relating to general defences in the context of the criminal law, and which may serve as points of reference for domestic law reform.
