From publisher description.

A Destiny of Undying Greatness Sep 30 2020 "I want to live now more than I ever did in my life but not from the selfish standpoint. This war has taught me many things and now I want to live to do whatever good is possible. But if I am killed anytime in the war I will not be afraid to die, and you may know that I will die like a man should, feeling that it is the greatest death that a man can die." - Kiffin Rockwell For more than two and a half years the example of Kiffin Rockwell and other idealistic American boys fighting on behalf of France shone like a beacon across the Atlantic Ocean, summoning America to take part in the ongoing struggle for civilization. Kiffin and a handful of other like-minded young men were intent on paying their portion of America's debt to Lafayette who, acting on similar impulses and ideals, had crossed the ocean more than a century before to assist America in its fight for independence. First in the trenches as volunteers with the French Foreign Legion, and then in the skies among the world's first fighter pilots, the unbelievable courage and voluntary sacrifice of these boys drew the attention of the world and galvanized American public opinion on the side of France. Played out against the almost unfathomable carnage of the war, the sinking of the Lusitania and the presidential election of 1916, this book sheds new light on the unforgettable true account of Kiffin and the other "boys who remembered Lafayette." Eventually, more than a million U.S. soldiers

would cross the Atlantic to help save France. All of them followed in the footsteps of Kiffin Rockwell. Mark M. Trapp is a lawyer in Chicago. This is his first

Communities in Early Modern England Feb 16 2022 How were cultural, political, and social identities formed in the early modern period? How were they maintained? What happened when they were contested? What meanings did "community" have? This path-breaking book looks at how individuals were bound into communities by religious, professional, and social networks; the importance of place--ranging from the Parish to communities of crime; and the value of rhetoric in generating community--from the King's English to the use of "public" as a rhetorical community. The essays offer an original, comparative, and thematic approach to the many ways in which people utilized communication, space, and symbols to constitute communities in early modern England.

[Treatise on Water Science](#) Aug 18 2019 Water quality and management are of great significance globally, as the demand for clean, potable water far exceeds the availability. Water science research brings together the natural and applied sciences, engineering, chemistry, law and policy, and economics, and the *Treatise on Water Science* seeks to unite these areas through contributions from a global team of author-experts. The 4-volume set examines topics in depth, with an emphasis on innovative research and technologies for those working in applied areas. Published in partnership with and endorsed by the International Water Association (IWA), demonstrating the authority of the content Editor-in-Chief Peter Wilderer, a Stockholm Water Prize recipient, has assembled a world-class team of volume editors and contributing authors. Topics related to water resource management, water quality and supply, and handling of wastewater are treated in depth

Kalaupapa Dec 02 2020 Between 1866 and 1969, an estimated 8,000 individuals—at least 90 percent of whom were Native Hawaiians—were sent to Molokai's remote Kalaupapa peninsula because they were believed to have leprosy. Unwilling to accept the loss of their families, homes, and citizenship, these individuals ensured they would be accorded their rightful place in history. They left a powerful testimony of their lives in the form of letters, petitions, music, memoirs, and oral history interviews. Kalaupapa combines more than 200 hours of interviews with archival documents, including over 300 letters and petitions written by the earliest residents translated from Hawaiian. It has long been assumed that those sent to Kalaupapa were unconcerned with the world they were forced to leave behind. The present work shows that residents remained actively interested and involved in life beyond Kalaupapa. They petitioned the Hawaii Legislative Assembly in 1874, seeking justice. They fervently supported Queen Liliuokalani and the Hawaiian Kingdom prior to annexation

and contributed to the relief effort in Europe following World War I. In 1997 Kalaupapa residents advocated at the United Nations together with people affected by leprosy from around the world. This book presents at long last the story of Kalaupapa as told by its people. **Library of Congress Catalog** Jan 03 2021 A cumulative list of works represented by Library of Congress printed cards.

A Companion to the History of the Book Nov 20 2019 A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose "As a stimulating overview of the multidimensional present state of the field, the Companion has no peer." Choice "If you want to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Eliot and Rose have done a fine job. Their volume can be heartily recommended. " Adrian Johns, *Technology and Culture* From the early Sumerian clay tablet through to the emergence of the electronic text, this Companion provides a continuous and coherent account of the history of the book. A team of expert contributors draws on the latest research in order to offer a cogent, transcontinental narrative. Many of them use illustrative

examples and case studies of well-known texts, conveying the excitement surrounding this rapidly developing field. The Companion is organized around four distinct approaches to the history of the book. First, it introduces the variety of methods used by book historians and allied specialists, from the long-established discipline of bibliography to newer IT-based approaches. Next, it provides a broad chronological survey of the forms and content of texts. The third section situates the book in the context of text culture as a whole, while the final section addresses broader issues, such as literacy, copyright, and the future of the book.
