Lordship and Architecture in Medieval and Renaissance Scotland Sep 25 2019 These essays constitute the first radical reassessment since the nineteenth century of the role of architecture as an expression of lordship and status among Scottish secular and ecclesiastical elites in the period c.1124–c.1650. These studies of the architectural patronage of particular families or groups explore how the nobility operated socially and economically, as well as politically, in the organisation and structure of lordship throughout the medieval and renaissance periods. The contributors draw on the traditions and strengths of Scottish genealogical, archaeological and art-historical enquiry to illustrate key themes, which include: family or kindred styles in building on a local, regional or national level; builders' or patrons' motives; the scale and use of the buildings; and ascertainable changes in function, purpose and attitude.

Highland Warrior Jun 14 2021 Joshua Sinclair was once the fiercest and most notorious warrior of the mighty Sinclair clan of Northern Scotland. But now there's nothing and no one that can make him take up arms again. Except a beautiful woman, it seems. When Kára Flett, daughter of a fallen Norse chief, finds herself unexpectedly sheltering the strongest, most brutal warrior in the land, she throws together a risky and outrageous plan to bring him to her side. Threats of violence bounce right off him. Offers of gold seem to entice him even less. Desperate enough to use the pleas of the village children to sway him, she's shocked when he's completely unmoved. There's only one tactic left for her: seduction. Her hasty proposition falls completely by the wayside, though, as she and the Highlander come together in a carnal inferno. But bringing him into her life also brings his enemies to her clan's doorstep—the very clan Kára is trying to protect. And as their feelings deepen, Joshua will have to decide between

duty and love once and for all. Each book in the Sons of Sinclair series is STANDALONE: * Highland Conquest * Highland Warrior * Highland Justice

From an Antique Land Jan 28 2020 This book looks at visual images as an alternative and undervalued source of evidence for ideas about the Scottish Gaidhealtachd in the period 1700 - 1880. Illustrated with 100 plates, it brings together many little known and previously unrelated images. Addressing the textual bias inherent in Scottish historical studies, the book examines a broad range of maps, plans, paintings, drawings, sketches and printed images, arguing that the concept of antiquity was the single most powerful influence driving the visual representation of the Highlands and Islands from 1700 to 1880, and indeed beyond. Successive chapters look at archaeological, ethnological and geological motives for visualising the Highlands, and at the bias in favour of antiquity which resulted from the spread of these intellectual influences into the fine arts. The book concludes that the shadow of time which hallmarked visual representations of the region resulted in a preservationist mentality which has had powerful repercussions for approaches to Highland issues down to the present day. The book will appeal to historians, art historians, cultural geographers, and the general reader interested in Highland history and culture.

Love Among the Ruins Jun 26 2022 Love Among the Ruins is a book of haiku celebrating the coming of spring. It

does so among the setting of four castles on the Isle of Mull, off the western coast of Scotland. It starts amid the wintry desolate ruins of the thirteenth-century Aros Castle, moving to the empty shell of the unsafe tower-house, Moy Castle, built around 1450. It then focuses on the more modern Glengorm Castle, built where the township of Sorn once stood in 1860, and concludes with the full flowering of spring in Duart Castle, a medieval ruin rebuilt in the early twentieth century, and the seat of the Clan MacLean. The cover shows a picture of Aros Castle.

Island Voices Jul 28 2022 Focusing on North Mull - north of Glen More, but excluding Craignure, Torosay and Brolas - this book is an anthology of the tales and traditions of Mull in the words of those who tell them. The writing covers belief and superstitions, pastimes, work, health and cures, tales and proverbs. The subjects are taken from a wide range of sources and periods, from Martin Martin in the 17th century to writing which dates from the end of the Second World War, a time which saw much change in Gaelic society as a whole. The material covers traditions and accounts of a very practical and often harsh existence, variations on tales which are more obscure as well as those that are well known. The book is a celebration of a people that are often excluded from the standard historical accounts of the clans and Highlands, but who have endured much and safeguarded an important heritage.

A History of the Clan Mac Lean from Its First Settlement at Duard Castle, in the Isle of Mull, to the Present Period Oct 19 2021

The Kingdom of the Isles Sep 17 2021 This study explores the history of the western seaboard of Scotland (the Hebrides, Argyll and the Isle of Man) in a formative but often neglected era: the central middle ages, from the mightily Somerled to his descendant John MacDonald, the first Lord of the Isles (c. 1336). Drawing on a variety of sources, this very readable narrative deals with three major and closely interrelated themes: first, the existence of the Isles and coastal mainland as a kingdom from c.1100 to 1266; second, the rulers of the region, Somerled and his descendants, the MacDougalls, MacDonalds and MacRuaris; and third, the often complex relations among the Isles, Scotland, Norway and England. A fully rounded history emerges, which transcends national viewpoints. While political history predominates, the changing nature of society in the isles is emphasised throughout, and separate chapters address the church and monasticism as well as the monuments – the castles, monasteries, churches and chapels that form an enduring legacy.
