Criminality Exposed Colombo Hilton Hotel Construction Perversely `Covered-Up' Mar 31 2020 In this voluminous Book in a series by the Author on corruption, fraud and economic crime, with indepth analysis, transcending forensic accounting, he brilliantly reveals, with incisive diametrics, irrefutable evidence of criminality, in the construction of Colombo Hilton Hotel by Mitsui & Taisei, Japan, with Architects, Kanko Kikaku Sekkeisha Yozo Shibata & Associates successful civil prosecution by Author led to Japanese writing-off US \$ 207 Mn. He establishes beyond reasonable doubt, that original Architectural Plans had been suppressed / destroyed by a staged fire, with amended Architectural Plans surreptitiously substituted being cannibalized Sheets, with incongruous elevations, whereby such Plans could not be approved. Meticulously probing into elevations on Floor Sheets and Cross-Sectional Sheets, which crucial aspect had been overlooked by professional architectural investigations, he proves the shortfall of floors, with the elevations on tampered Sheets bearing tell tale evidence of being identical, with elevations in the cross-sections of the Project Plan, upon which Hilton International formulated Profitability Forecasts, to obtain State Guarantees from Sri Lanka Government, to finance this construction, which was a major fraud perpetrated on the people, rendering such guarantees null and void. Shockingly revealed are perverse endeavours, including by Auditors, KPMG Ford, Rhodes, Thornton & Co., to cover-up this massive fraud, involving upper echelons, with socio-political / international ramifications. Appallingly, criminal investigations were significantly abandoned, on advice of Attorney General. Securities Exchange Commission colluded to cover-up, whilst Chartered Accountants Institute endeavoured to whitewash miscreants. This is a

revealingly absorbing Book of real experiences of the Author, in exposing and combating, a despicable fraud on the people, which to him was a crime against humanity, and would be invaluable to investigators and prosecutors of commercial frauds and crimes, and civil society urging equal enforcement of the rule of law.

The Committee to Destroy the World May 02 2020 An updated examination of what's weakening the U.S. economy, and how to fix it The Committee to Destroy the World: Inside the Plot to Unleash a Super Crash on the Global Economy is a passionate and informed analysis of the struggling global economy. In this masterfully conceived and executed work, Michael Lewitt, one of Wall Street's most respected market strategists and money managers, updates his groundbreaking examination of the causes of the 2008 crisis and argues that economic and geopolitical conditions are even more unstable today. His analysis arrives in time for the impending economic and geopolitical debates of the 2016 election season. Lewitt explains in detail how debt has now overrun the world's capacity, how federal policies of the past few decades have created a downward vortex sapping growth and vitality from the American economy, and how greed and corruption are preventing reform. The financial crisis created tens of trillions of debt, leaving investors to pay a huge price for these policy failures: The highest asset inflation we've seen in our lifetimes, although the government claims there isn't enough inflation More than \$2 trillion of stock buybacks funded with low cost debt that are artificially inflating stock prices The Federal Reserve and other global central banks becoming the largest buyers of government debt in order to suppress interest rates An M&A boom resulting from companies needing to find growth outside of their core businesses While the financial media misses the story, Lewitt pulls no punches explaining how all of these trends are leading to the brink of another crisis. Lewitt lays out a survival plan for the average investor to protect their assets when the debt bubble bursts. The first edition of this book expressed hope that policymakers would not let the financial crisis go to waste. This book urges investors to learn from the crushed hope and take action before the next crisis.

A World Trade-Import-Export Business-Job Guide Jul 04 2020 This book contains contact information for business, trade and jobs in most countries particularly the big ones: United States China Japan Germany United Kingdom Canada France India There are a lot of free trade agreements like NAFTA (North America Free Trade Agreement) and GATT (General Agreement on Trades and Tariffs) which has made free trade easy, especially among the members of the WTO but there is still paperwork involved when bringing commercial goods across borders because many countries put forth the idea or illusion that they're protecting their economies from world trade but in truth we're a globalized world. There is only one country called the world. It gets more interdependent everyday. China doesn't want a war with United States because they owe them a lot of money which would immediately be nullified if war is declared. I just heard on the news that this month's trade deficit for the U.S. IS 80 billion dollars. That's 80 billion dollars more of stuff coming in than going out. As I say below, I lived through the pre-free trade days. There was a time when we were prosperous when we made most of the things we used. Young people nowadays don't have an idea of a golden age when you could get a job pretty well anywhere you wanted because there were factories all over the place. The Routledge Handbook of Hotel Chain Management Nov 19 2021 Understanding the global hotel business is not possible without paying specific attention to hotel chain management and dynamics. Chains are big business, approximately 80 percent of hotels currently being constructed around the world are chain affiliated and, in 2014, the five largest brands held over a one million rooms. The high economic importance of the hotel chains and their global presence justifies the academic research in the field however, despite this, there is no uniform coverage in the current body of literature. This Handbook aids in filling the gap by exploring and critically evaluates the debates, issues and controversies of all aspects of hotel chains from their nature, fundamentals of existence and operation, expansion, strategic and operational aspects of their activities and geographical presence. It brings together leading specialists from range of disciplinary backgrounds and regions to provide state-of-the-art theoretical reflection and empirical research on current issues and future debates. Each of the five inter-related section explores and evaluates issues that are of extreme importance to hotel chain

management, focusing on theoretical issues, the expansion of hotel chains, strategic and operational issues, the view point of the individual affiliated hotel and finally the current and future debates in the theory and practice of hotel chain management arising from globalisation, demographic trends, sustainability, and new technology development. It provides an invaluable resource for all those with an interest in hotel management, hospitality, tourism and business encouraging dialogue across disciplinary boundaries and areas of study. This is essential reading for students, researchers and academics of Hospitality as well as those of Tourism, Marketing, Business and Events Management.

IMF, WORLD BANK & ADB AGENDA ON PRIVATISATION Sep 25 2019 This shockingly explosive Book deals with the manipulative privatization of Sri Lanka Insurance, under a privatization program, pushed by IMF, World Bank and ADB; questionably mishandled by PricewaterhouseCoopers and Ernst & Young, contravening governmental procedures and professional standards; involving a consortium of leading corporates, controlled by one individual, portrayed as a close associate of former US President Bill Clinton. This dubious deal was annulled as wrongful, unlawful and illegal by the Supreme Court, the highest judiciary, observing that it 'shocked the conscience of Court', asserting that public assets are held in trust on behalf of the people. This Book exposes those holding elected and selected influential and powerful public office unabashedly compromising national and public interests, in the disposal of an invaluable national asset, at a ridiculous price, to parties, who had not even been pre-qualified, with one party incorporated in Gibraltar after the completion of the process, and whose source of funds channeled through a leading Bank remained a mystery. This Book appallingly reveals how pontificating professionals retrospectively manipulated the financials of Sri Lanka Insurance, facilitating a fraudulent demand for a refund from the Government. It reveals the unashamed condoning of fraud and corruption, and bestowing on corrupt miscreants even more recognition, shunning the 'rule of law'; and the absence of law enforcement; and the duplicitous stances of the Chamber of Commerce and the Institute of Chartered Accountants. This book is an 'eye opener' on socio-political realities, and is invaluable to those dealing with privatization, public finance and commerce, fraud and corruption, forensic accounting, and to legal academics and professionals, and public interest activists.
