Don't Shoot May 26 2022 Gang- and drug-related inner-city violence, with its attendant epidemic of incarceration, is the defining crime problem in our country. In some neighborhoods in America, one out of every two hundred young black men is shot to death every year, and few initiatives of government and law enforcement have made much difference. But when David Kennedy, a self-taught and then-unknown criminologist, engineered the "Boston Miracle" in the mid-1990s, he pointed the way toward what few had imagined: a solution. Don't Shoot tells the story of Kennedy's long journey. Riding with beat cops, hanging with gang members, and stoop-sitting with grandmothers, Kennedy found that all parties misunderstood each other, caught in a spiral of racialized anger and distrust. He envisioned an approach in which everyone-gang members, cops, and community members-comes together in what is essentially a huge intervention. Offenders are told that the violence must stop, that even the cops want them to stay alive and out of prison, and that even their families support swift law enforcement if the violence continues. In city after city, the same miracle has followed: violence plummets, drug markets dry up, and the relationship between the police and the community is reset. This is a landmark book, chronicling a paradigm shift in how we address one of America's most shameful social problems. A riveting, page-turning read, it combines the street vérité of *The Wire*, the social science of *Gang Leader for a Day*, and the moral urgency and personal journey of *Fist Stick Knife Gun*. But unlike anybody else, Kennedy shows that there could be an end in sight.

Dying Embers and Shooting Stars Jul 04 2020 A chance remark by a sensitive daughter to her depressed mother sparks off this fulsome story. Unresolved issues, that have been haunting Margo for most of her adult life, are vividly recalled as she is catapulted into an intense psychological journey over a period of five days. Her re-awakening mind becomes increasingly aware that it has been set on automatic pilot for some years and little, further purpose is served by her accrued defences. In the process of review, she begins to recognize the psychic supports that have been with her all along and is somewhat surprised, as was the writer, at their identity. Internal landscapes range from a childhood in Scotland, to adulthood in Central Africa; from a stable village home, to a precarious city flat; from the wild, West Coast of Scotland, where gulls fly, to the wild streets of Glasgow, where gangs rule. The personal issues are explored with candour and pathos; but there is just as much genuine humour shared in the unfolding of these very human, and universally-recognized, life-situations. With its graphic imagery and flesh-and-blood characters, the story draws the reader into its mystic worlds. The Author shines a light on the inner life and perpetual

interconnectedness of all things and all beings. Ultimately, it is a tale of resilience and growth; insight and healing.

The Shotgun & Its Uses (History of Shooting Series) Dec 21 2021 This fascinating but little-known book was first published in London in 1914. The author was a prolific contributor to the sporting press of that time and was an acknowledged expert on guns and shooting. We have now republished it using the original text and illustrations. The book's 232 pages are a veritable mine of information on the development, manufacturing, choice, and use of the English shotgun and its associated cartridges and loads. Much practical advice is also offered on shooting grouse, pheasant, partridge, woodcock and wildfowl etc, with a multitude of tips on dealing with high birds, "coasters", wind direction and weather, "flapper-shooting," etc. Fourteen comprehensive chapters deal effectively with each of these subjects and are fully illustrated with vintage black and white photos and illustrations. The original fascinating adverts for guns, cartridges, shooting grounds, equipment etc, have also been retained for historical interest. This early shooting book will prove to be a valuable asset in increasing the knowledge and prowess of all "gun-buffs" and shooting men.

When The Shooting Stops ... The Cutting Begins Mar 12 2021 The story of one of the most important and least-understood jobs in moviemaking-film editing-is here told by one of the wizards, Ralph Rosenblum, whose credentials include six Woody Allen films, as well as *The Pawnbroker*, *The Producers*, and *Goodbye, Columbus*. Rosenblum and journalist Robert Karen have written both a history of the profession and a personal account, a highly entertaining, instructive, and revelatory book that will make any reader a more aware movie-viewer.

The Scientific Education of Dogs for the Gun (History of Shooting Series - Gundogs & Training) Aug 05 2020 The author writes from his then thirty-seven years of practical experience, beginning with his first successfully trained Pointer as a teenager. Some of his methods will prove controversial, but the overall advice given in this book has easily stood the test of time and will benefit all first-time trainers or anyone wishing to improve on their present methods. 220 pages contain sixteen detailed chapters dealing with: - "The Rationale." - Kennel Management. - Retrievers (4 chapters). - Wild Fowling. - Pointers and Setters (8 chapters). - Field Trials. - Spaniels. The eight chapters concentrating on the "breaking" or training of Pointers and Setters will prove of enormous interest to shooting men, field triallers, and falconers. The author's admiration for the reasoning power of the dog, which makes itself evident on every other page, will assuredly be shared by all who read this book. Many of the earliest sporting books, particularly those dating back to the 1800s, are now extremely scarce and very expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Shooting the Moon Jul 16 2021 This edition of the standard textbook on its subject has been revised by Robert Churchill's biographer. Macdonald Hastings, himself well-known in the shooting field (and other fields as well), has incorporated comments on matters which, since Churchill's *Game Shooting* as first published in 1955, required further enlargement or modification. He has also brought the entire work completely up-to-date. Macdonald Hastings, who collaborated with the author in the writing of the original edition, was Robert Churchill's own choice to revise the text and this new edition of Churchill's drill book, as the great gunmaker and coach himself liked to describe it, may be regarded as contemporarily definitive. None who read the first edition will want to miss this second one, in which every point of controversy and prejudice has been underlined with an editorial note to assist the shooting man in improving his own performance. To those who are still unfamiliar with Churchill's method of teaching game-shooting, it is important to add that this book is aimed to help not merely the experienced shot who wonders why he is missing, but also the novice handling a gun for the first time. It contains complete and always practical advice on all forms of shot-gun work for everybody. Those who make good use of this manual will not only be welcome guests in any company but quickly pay the cost of the book out of the saving they make on wasted cartridges.

American By Day Dec 09 2020 A gripping and timely novel that follows Sigrid—the dry-witted detective from Derek B. Miller's best-selling debut *Norwegian by Night*—from Oslo to the United States on a quest to find her missing brother. She knew it was a weird place. She'd heard the stories, seen the movies, read the books. But now police Chief Inspector Sigrid Ødegård has to leave her native Norway and actually go there; to that land across the Atlantic where her missing brother is implicated in the mysterious death of a prominent African American academic—America. Sigrid is plunged into a United States where race and identity, politics and promise, reverberate in every aspect of daily life. Working with—or, if necessary, against—the police, she must negotiate the local political minefields and navigate the backwoods of the Adirondacks to uncover the truth before events escalate further. Refreshingly funny, slyly perceptive, *American by Day* is "a superb novel on all levels" (Times, UK). "Ingenious. Humorous. Wonderful."—Lee Child

Shooting Chant Feb 08 2021 Once an FBI agent, Ella Clah is now a Special Investigator with the Navajo Police. She walks a tightrope between the Navajo and white worlds, fully accepted by neither but needed by both. Ella's brother, Clifford, a

hataali or medicine man, says that her investigative skills are a gift from the spirits who guard and guide the Dineh, but Ella insists it's her FBI training that has honed her instincts. Ella's life is about to change in ways she can barely begin to imagine--she is newly pregnant, and though she knows who the father is, she will not marry him. In Navajo society, her child will be of her clan, and will be accepted by her family, no matter what--but how can she stay a police officer, exposing herself and her unborn child to terrible danger day after day? Given her current caseload, it's hard for Ella to put off making a final decision about her career. There's a near-riot at LabKote, a factory on the Reservation that produces high-quality vessels for medical labs. The Fierce Ones, an activist group of Navajo, are insisting that more native workers be hired by the firm--including a Navajo replacement for a manager recently found dead in his car, an apparent suicide. A sniper shoots at Ella as she drives to another crime scene--the home of State Senator James Yellowhair, who has been kidnapped. Feuding between traditionalist and modernist elements in the Navajo nation heats up with sabotage, vandalism, and murder, spurred by a rise in birth defects among the Dineh's livestock and rustling of sheep and cattle. Ella's personal concerns mount when officers investigating a break-in at the health clinic discover that the records of several pregnant women--including Ella--are missing. Then one of the pregnant women is murdered... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A native Somali escort accompanies them during this expedition. British writer and big game hunter Agnes Herbert keeps the reader hooked with her refreshing writing style throughout the novel. She wonderfully describes the beauty and austerity of the jungle and desert in the passages as the two ladies travel through the country. George A. Romero Jan 22 2022 George A. Romero (b. 1940) has achieved a

surprising longevity as director since his first film, *Night of the Living Dead* (1968). After recently relocating to Canada, he shows no signs of slowing up: his recent film, *Survival of the Dead* (2009), is discussed in a new interview conducted by Tony Williams for this volume, and still other films are awaiting release. Although commonly known as a director of zombie films, a genre he himself launched, Romero's films often transcend easy labels. His films are best understood as allegorical commentaries on American life that just happen to appropriate horror as a convenient vehicle. Romero's films encompass works as different as *The Crazies*, *Hungry Wives*, *Knightriders*, and *Bruiser*. The interviews in this collection cover a period of over forty years. In whatever format they originally appeared—the printed page, the internet, or the video interview—these discussions illustrate both the evolution of Romero's chosen forms of technology and the development of his thinking about the relationship between cinema and society. They present Romero as an independent director in every sense of the word.

A Shooting Star Aug 24 2019 Sabrina Castro, an attractive woman with a strong New England heritage, is married to a wealthy, older California physician who no longer fulfills her dreams. An almost accidental misstep leads her down the slow descent of moral disintegration, until there is no place for her to go but up and out. How Sabrina comes to term with her life is the theme of this absorbing personal drama, played out against the background of an old Peninsula estate where her mother lives among her servants, her memories of Boston and her treasured family archives. *A Shooting star* displays all the greatness of Wallace Stegner's storytelling powers. Wallace Stegner was the author of, among other works of fiction, *Remembering Laughter* (1973); *The Big Rock Candy Mountain* (1943); *Joe Hill* (1950); *All the Little Live Things* (1967, Commonwealth Club Gold Medal); *Angle of Repose* (1971, Pulitzer Prize); *The Spectator Bird* (1976, National Book Award); *Recapitulation* (1979); *Crossing to Safety* (1987); and *Collected Stories* (1990). His nonfiction includes *Beyond the Hundredth Meridian* (1954); *Wolf Willow* (1963); *The Sound of Mountain Water* (essays, 1969); *The Uneasy Chair: A Biography of Bernard deVoto* (1964); *American Places* (with Page Stegner, 1981); and *Where the Bluebird Sings to the Lemonade Springs: Living and Writing in the West* (1992). Three short stories have won O. Henry prizes, and in 1980 he received the Robert Kirsch Award from the Los Angeles Times for his lifetime literary achievements.

Shooting Vietnam Feb 20 2022 What was it like to be a military combat photographer in the most photographed war in history — the Vietnam War? *Shooting Vietnam* takes you there as you read the firsthand accounts and view the hundreds of photographs by men who lived the war through the lens of a camera. They documented everything from the horror of combat to the people and culture of a land they suddenly found themselves immersed in. Some even juggled cameras with rifles and grenade launchers as they fought to survive while carrying out their assignments to record the war. "*Shooting Vietnam*" also finally brings recognition to these unheralded military

combat photographers in Vietnam that documented the brutal, unpopular, and futile war. Firsthand accounts and photographs by military photographers in Vietnam from the mid-1960s to the early 1970s, "Shooting Vietnam" puts the reader right alongside these men as they struggle to document the war and stay alive while doing it — although some didn't survive. The cameras around their necks often shared space with a rifle or grenade launcher that enabled them to stay alive while performing their assigned military duties, killing, if necessary, to survive. Often, during a brief respite from trudging through swamps and rice paddies or jumping from a chopper into a hot landing zone, they would wander the streets of villages or even downtown Saigon, curiously photographing a people and a culture so strange and different to them. It is these photographs, of a kinder, more personal nature, removed from the horror and death of war that they also share with the reader. The accounts in this book come from young men thrust into a conflict half way around the world, and all who had their own unique perspective on the war. Some were seasoned photographers before the military, others had only recently held a camera for the first time.
