An anthology of ten stories set in the world of Mantica, a world of epic fantasy. Ten experience authors give the reader an introduction to the setting and people involved in the wonderous world of Mantica Tim is your ordinary, average, zombie-obsessed teen, and knows exactly what he'd do in the event of a mass awakening of living corpses. Unfortunately for him, he gets to test those plans for real. When an outbreak of living corpses takes over his town, Tim finds himself unwittingly in the middle of a vast undead conspiracy. The internet's so-called "savior", Ritch, has taken him captive and is experimenting on him. As his body reacts to the virus and reveals zombie-like symptoms, Tim must uncover Ritch's true intentions and the undead's origins, revealing them to the world... before it's too late. From deep in the bowels of the Mines of Taas to the human kingdom of

Hathaway, the Curse of the Undead is spreading across Green Valley like the vilest of plagues, wiping out all life in its path. Employing his army of shades to drain their life energy, Xeon the Undead Shadow Dragon has destroyed thousands of worlds throughout the millennia, and the world of Karth is next in his path of destruction. A chance meeting between Llythwain, autistic son of an elf Ranger and Killian, an undead shade has altered the familiar pattern of events, sowing the seeds of a monumental clash between the living and the dead, between good and evil, between the Allegiance and the Shard and Xeon's ferocious undead army. "The Undead Curse threatens Green Valley! The human necromancers are to blame!" With the utterance of those words by the Elven Lords, the Allegiance pact between humans, elves, dwarves, gnomes, and barbarians weakens, just as that of the Shard races grows in strength. By uniting the ogres, goblins, spiders, orcs, kobolds and hill giants under one banner, Xeon has awakened ancient hatred between the two mighty factions and the Shard is ready for war. A group of heroes, a human, gnome, and two dwarves led by an elf mage must gather the strength and courage to

unlock the secret of the Undead Curse, but their time is running out. A fascinating tale of suspense and mystery filled with fantastic beings and stunning landscapes, Heroes of Karth: The Curse of the Undead is the first book in a multi-layered series that weaves themes of family, LGBTQ, autism, tolerance, and racism throughout a fantasy setting. At a mortuary overlooking the sea, a young hearse driver proposes to his love, the beautiful mortician's daughter Annabel. However, when a rival suitor, driven by greed, finds out about the betrothal, he takes matters into his own hands to ensure that their impending marriage is dead and buried. Done in a style reminiscent of Victorian silhouettes and early cinema, HEART OF A CORPSE: AN UNDEAD ENGAGEMENT is the first in a two-part heartbreaking love story. &'Old actors never die' shouldn't be literally true. Carrington Loveless III, skim-blood vampire and senior officer of Philly's paranormal police department, has long suspected that someone's targeting his squad. So when a walking corpse spouting Oscar Wilde attacks one of his officers, Carrington's determined to uncover the evil mind behind it all. As a rare books librarian, Erasmus Graham thought he understood some of the stranger things in life. Sharing a life with Carrington has shown him he didn't know the half of it. Pressured by the stern Minister Beeston from the Department of Economies, the Ministry of Ghosts has been given three months to prove the existence or non-existence of ghosts, or else it will be shut down! Following this, the main sections of the book are arranged by tale type, covering wonder tales, hero tales, tales of kindness repaid and hope and redemption, and finally tales of fools and wise people. Each section begins by comparing the tales cross-culturally, explaining similarities and differences in the folkloric narratives. Tales from diverse cultures are then presented, introduced, and retold in a highly readable fashion. A History of the Literature of the U.S. South provides scholars with a dynamic and heterogeneous examination of southern writing from John Smith to Natasha Trethewey. Eschewing a master narrative limited to predictable authors and titles, the anthology adopts a variegated approach that emphasizes the cultural and political tensions crucial to the making of this regional literature. Certain chapters focus on major white writers (e.g., Thomas Jefferson, William Faulkner, the Agrarians, Cormac McCarthy), but a substantial portion of the work foregrounds the achievements of African American writers like Frederick Douglass, Zora Neale Hurston, and Sarah Wright to address the multiracial and transnational dimensions of this literary formation. Theoretically informed and historically aware, the volume's contributors collectively demonstrate how southern literature constitutes an aesthetic, cultural and political field that richly repays examination from a variety of critical perspectives. "We guarantee this is the only tool you need to

survive the zombie apocalypse. OK, that's not really true. But when the SHTF you're going to want a survival guide that's not just geared toward day-to-day survival. You'll need one that addresses the essential skills for true nourishment of the human spirit. Living through the end of the world isn't worth a damn unless you can enjoy yourself in any way you want. (Except, of course, for anything having to do with abuse. We could never condone such things. At least the publisher's lawyers say we can't.) We can't guarantee this guide will save your life. But we can guarantee it will keep you smiling while the living dead are chowing down on you."--Publisher's website.
