Thirty years ago when Sir Richard Branson called up Boeing and asked if they had a spare 747, few would have predicted the brash entrepreneur would so radically transform the placid business of air travel. But today,

Branson flies airlines on six continents, employs hundreds of jets and, in 2014, was predicting that his spaceship company – Virgin Galactic – would soon open the space frontier to commercial astronauts, payload specialists, scientists and space tourists. With more than 600 seats sold at \$250,000 each, what started off as a dream to send people just for the excitement to look back and marvel at Earth, was on the cusp of finally being turned into a business. Then, on October 21, 2014, tragedy struck. SpaceShipTwo was on its most ambitious test flight to date. Seconds after firing its engine, Virgin Galactic's spaceship was breaking through the sound barrier. In just the three seconds that it took for the vehicle to climb from Mach 0.94 to Mach 1.02, co-pilot Mike Alsbury made what many close to the event believe was a fatal mistake that led to his death and the disintegration of SpaceShipTwo. Miraculously, the pilot, Peter Siebold, survived the 16-km fall back to Earth. Soon after the event Branson vowed to continue his space tourism venture in spite of this. Already a second SpaceShipTwo is being built, and ticket-holders eagerly await the day when Virgin Galactic offers quick, routine and affordable access to the edge of space. This book explains the hurdles Virgin Galactic had and still has to overcome en route to developing suborbital space travel as a profitable economic entity, and describes the missions that will be flown on board SpaceShipTwo Mk II, including high-altitude science studies, astronomy, life sciences, and microgravity physics.

The must-read summary of Peter H. Diamandis and Steven Kotler's book: "Abundance: The Future Is Better Than You Think". This complete summary of the ideas from Peter H. Diamandis and Steven Kotler's book "Abundance" shows how advances in technology will make the world capable of meeting and exceeding the basic needs of every human on the planet. According to the authors, these technologies also have the potential to address several of society's most unsolvable problems. By learning about their research, you can understand the potential of modern technology and the part you can play in preparing for a future of abundance. Added-value of this summary: • Save time • Understand the key concepts • Expand your knowledge To learn more, read "Abundance" and find out about the abilities of technology to improve our world for the better. U.S.A.F. Chief of Staff 2013 Professional Reading List Selection Nearly forty years passed between the Apollo moon landings, the grandest accomplishment of a government-run space program, and the Ansari X PRIZE-winning flights of SpaceShipOne, the greatest achievement of a private space program. Now, as we hover on the threshold of commercial spaceflight, authors Chris Dubbs and Emeline Paat-Dahlstrom look back at how we got to this point. Their book traces the lives of the individuals who shared the dream that private individuals and private enterprise belong in space. Realizing Tomorrow provides a behind-the-scenes look at the visionaries, the crackpots, the financial schemes, the legal wrangling, the

turf battles, and--underpinning the entire drama--the overwhelming desire of ordinary people to visit outer space. A compelling story of the pioneers of commercial spaceflight--and their efforts to open the final frontier to everyone--this book traces the path to private spaceflight even as it offers an instructive, entertaining, and cautionary note about its future. The Millionaire Master Plan is a unique and fresh approach as to how individuals can not only get a sense of where they stand on the spectrum of personal wealth, but more importantly, how they can learn to ascend from their present state to a higher level. Roger James Hamilton, himself a highly successful entrepreneur and successful investor, has designed nine steps - from barely surviving - all the way to the highest level of ultimate wealth for life - and he lays out his nine steps in an easy-to-understand color-coded manner that ranges from red (barely living paycheck-to-paycheck) all the way to ultra-violet (where generating income is simply no longer a worry). Along the way, the reader first takes a quick test to determine where one is on the financial spectrum, and then Hamilton provides key insights and practical tips as to how one can progress to the next level. You track your progress by ascending from one color to the next. An acclaimed biographer takes on one of the world's most elusive media moguls in Citizen Newhouse. The harvest of four years and over 400 interviews, Carol Felsenthal's book is an unauthorized investigative biography that paints a tough yet

even-handed portrait. Here is the father, Sam Newhouse, who developed a formula for creating newspaper monopolies in small metropolitan markets and turned it into a huge family fortune. And the sons: Si in the magazine business, with his crown jewels, The New Yorker, Vanity Fair, and Vogue, and Donald, who runs the family's newspaper and cable television companies. Focusing on Si's life and career, Citizen Newhouse takes the measure of one of America's most powerful yet unexamined figures. Felsenthal shows how Si's quirky behavior as a shy and awkward outsider has had a far-reaching impact on the properties he owns, affecting—and in the opinion of some, compromising—the quality of the Newhouse "product" across the country and the world. Felsenthal shines a light on the breathtaking changes that have taken place among Si's top editors, and the fabulous perks available to members of this elite. She also lays bare the role played by Roy Cohn in the affairs of both father and son. Citizen Newhouse provides a fascinating account of powerful and glamorous lives—and their impact on the newspapers and magazines we read every day. Raumfahrt ist wieder sexy. Während sich herkömmliche Milliardäre um die Größe ihrer Superjachten streiten, machen Amazon-Chef Jeff Bezos, Virgin-Besitzer Richard Branson und SpaceX- und Tesla-Gründer Elon Musk Schlagzeilen mit Raketen. Die extrovertierten Space-Gurus pumpen Milliarden Dollar in ihre Raumfahrt-Unternehmen und läuten womöglich eine neue Epoche der Menschheit

ein. Der Mensch greift wieder nach den Sternen, ausgelöst durch die Privatisierung und Digitalisierung der Raumfahrt. Ein Hotel im Orbit, ein Dorf auf dem Mond, eine Mission zum Mars – seit Apollo 11 war der "Deep Space" nicht mehr so in Reichweite. Die aktuelle Entwicklung hat zudem alles, was eine epische Geschichte ausmacht: ein großes Ziel, einen Kampf der Giganten, den Einsatz "alles oder nichts", die Welt als Publikum und den größten aller Preise – ewiger Ruhm. Inspiration can be found every day in people, places, and things around each of us. This book can help you explore the inspiration around us. Reading these daily doses of inspiration can add positivity to your day and aid you in following your personal inspiration and achieving your goals. Inspiration can be explored and used as a powerful tool for your mind. The 365 daily doses of inspiration explored here can lead to personal inspiration and bright days for you! "Fitness, money, and wisdom--here are the tools. Over the last two years ... Tim Ferriss has collected the routines and tools of world-class performers around the globe. Now, the distilled notebook of tips and tricks that helped him double his income, flexibility, happiness, and more is available as Tools of Titans"--Page 4 of cover. Desde los orígenes de la humanidad, unos pocos privilegiados han vivido en marcado contraste con la mayoría, muy pobre. La opinión más común es que la distancia que separa a unos de otros es imposible de superar. Sin embargo la distancia se está estrechando...y rápido. En Abundancia, el empresario

del espacio convertido en pionero de la innovación, Peter H. Diamandis y el galardonado escritor de temas científicos Steven Kotler documentan cómo el progreso en inteligencia artificial, robótica, computación infinita, redes de banda ancha, manufactura digital, nanomateriales, biología sintética y muchas otras tecnologías que están creciendo exponencialmente nos permitirán obtener en las próximas dos décadas unos avances muy superiores a los que hemos conseguido en los doscientos años anteriores. Pronto tendremos la capacidad de alcanzar y superar las necesidades básicas de cada hombre, mujer y niño del planeta. La abundancia para todos está a nuestro alcance. En este apasionante antídoto contra el pesimismo imperante, los autores exploran cómo cuatro fuerzas emergentes -las tecnologías exponenciales, el innovador "hazlo tú mismo", los tecnofilántropos y los mil millones emergentes- están conspirando para resolver nuestros mayores problemas. The must-read summary of Peter Diamandis and Steven Kotler's book: "Bold: How to Go Big, Create Wealth and Impact the World". This complete summary of the ideas from Peter Diamandis and Steven Kotler's book "Bold" shows that nowadays anybody can get involved in the technology industry and make money from it; they just need to have a bold mindset. The authors explain that the key to success is to become an exponential entrepreneur; that is, to harness the growing power of exponential technologies most effectively. By using these new technologies, such as robots or

nanotechnology, you can make a real difference to the world as well as reaping your own benefits. This summary tells you all you need to know about becoming an exponential entrepreneur and using new technology to your advantage. Added-value of this summary: • Save time • Understand key concepts • Develop your business knowledge To learn more, read "Bold" and start getting the most out of exponential technologies. "A must read for anyone [who] truly wants to live life on their terms . . . packed full of countless ideas that can be implemented from the moment you read it" (Peggy McColl, New York Times–bestselling author). If you were to make a list of 22 goals in business and in life, it would likely include everything from losing weight to making more money. Now try to find one expert who can provide concrete, practical, proven solutions to break through all 22 barriers, and you'll soon discover there is no all-knowing guru or credentialed expert with the necessary skills and experience. That's why 22 leading experts came together to create the first collaborative five-star success buffet with concrete solutions for the most critical personal and professional challenges encountered by men and women around the globe. The Expert Success Solution combines 300+ years of experience in business and personal development to provide practical, step-by-step strategies in a fast-reading, entertaining, inspirational, hit-you-between-the-eyes, how-to manual. Filled with thought-provoking questions and real-life stories, the tools provided here will solve existing

problems and help you avoid life's greatest speed bumps. This is the juncture where motivation meets information and where the biggest decision you'll have to make is whether to grab a tissue or a highlighter. It all begins with six simple questions . . . "This book is important . . . You'll find humor and wisdom from seasoned professionals who have been-there-done-that. I wish I had this book earlier—I might be competing for Brad Pitt's or Denzel Washington's roles!"

—George Hamilton, actor and bestselling author

Bestselling author and economist Jay W. Richards makes the definitive case for how the free market and individual responsibility can save the American Dream in an age of automation and mass disruption. For two and a half centuries, America has been held together by the belief that if you work hard and conduct yourself responsibly in this country, you will be able to prosper and leave a better life for your children. But over the past decade, that idea has come into crisis. A recession, the mass outsourcing of stable jobs, and a coming wave of automation that will replace millions of blue- and white-collar jobs alike have left many people worried that the game is rigged and that our best days are behind us. In this story-driven manifesto on the future of American work, Jay Richards argues that such thinking is counterproductive--making us more fragile, more dependent, and less equipped to succeed in a rapidly changing economy. If we're going to survive, we need a new model for how ordinary people can thrive in this age of mass disruption.

Richards pulls back the curtain on what's really happening in our economy, dispatching myths about capitalism, greed, and upward mobility. And he tells the stories of how real individuals have begun to rebuild a culture of virtue, capitalizing on the skills that are most uniquely human: creativity, resilience, and empathy for the needs of others. Destined to take its place alongside classics like Economics in One Lesson, The Human Advantage is the essential book for understanding the future of American work, and how each of us can make this era of staggering change work on our behalf. This book captures the most exciting advances in the harnessing of space as a global resource. The authors track the growing number of space businesses and opportunities for investors, and the many possible benefits of spaceplanes, space stations and even space colonies. The authors also discuss the need for more regulatory reform. Companies like Planetary Resources are now forming to find mineral-rich asteroids and bring back new riches to Earth. Solar power satellites in the next few years will start to beam clean energy back to Earth, to meet the growing demands of a still-developing world. Innovative space industries are vital to the survival of modern human life, and the authors demonstrate what can be done to encourage the growing of the "New Space" frontier. From lassoing and then mining asteroids to developing new methods of defending the planet from space hazards and setting up new hotels and adventures for tourists in space, this new industry will have

*profound effects on Earth, especially on its economy. This book is based on a study of international experts commissioned ahead of the UNISPACE+50 meeting, having distilled the results of this comprehensive fact-finding process into a compact and very readable form. It can serve as an excellent starting point for understanding all the activities underway or planned to make space truly our next frontier. * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. *By reading this summary, you will discover how you can change the world and improve the global standard of living. *You will also discover that : abundance of resources (food, energy, water) is possible; technology is growing exponentially at an infinite rate; we have the means to improve the standard of living for the entire world population; the new means of communication are a vector of freedom. *In the era of globalization, the problems that affect one country have an impact on the world. Therefore, it becomes necessary to have a global approach when talking about improving the future. The concept of abundance is a positive vision of the future, the vision of a world where there would be enough resources for all and where all the people of the world would see their standard of living increase. Making every effort to build this better world will be the major challenge of the coming decades. *Buy now the summary of this book for the modest price of a cup of coffee! Our Ecological Footprint presents a*

powerful model for measuring humanity's impact on the Earth to reduce the harm we are causing the planet before it's too late. While some people believe we can find a middle ground between environmental conservation and economic development, or that future technological discoveries will solve the problem, the authors warn that our planet's limited resources simply can't support an economic system based on unlimited growth. Our Ecological Footprint offers a valuable tool to help us live more sustainably and safeguard our natural resources for generations to come. Please note: This is a companion version & not the original book. Sample Book Insights: #1 I was invited to speak at the conference, and while I was nervous, I was still excited. I was nervous because people knew me as Anthony Scaramucci, not Andrew. But it didn't matter because I was witnessing a minor miracle. #2 I was terrified, but not panicked. I was not frozen in fear, but I was scared. I was not helpless to logic, but I was subject to seemingly unthinkable behavior. I was not unfree to adjust, but I was subject to seemingly unthinkable behavior. #3 I knew that the only way to get the message out was to operate on the balls of my feet, not my heels. I believed that SALT would introduce SkyBridge to a critical mass of potential investors and peer managers. #4 I proposed the first annual SALT Conference, which would serve as an industry platform. My partners voted against it, saying that it was too risky and that we didn't know how to put it together in less than two months. But I believed in the

promise of the conference, and I took control through my corporate governance agreement. “A lively and informative account of the creative process and how it works by someone who obviously knows.” —George Plimpton, editor of The Paris Review “Finally, a GPS for finding your great ideas.” —Mike Slosberg, cofounder of Digitas

*The ability to turn a good idea into a great reality is a vital ingredient in achieving success. In *It Only Takes One*, John Emmerling offers an innovative, exciting, and proven method for taking your idea from a first faint flash to a fabulous finish. In this remarkable book, filled with exercises, charming cartoons, and quizzes, Emmerling explains the six steps of his incredible effective S.T.R.I.K.E. process. With chapters on salesmanship, enthusiasm,chutzpah, and much more, *It Only Takes One* provides you with the creative power you need to strike it big on the road to success. Humanity is on the cusp of an exciting longevity revolution. The first person to live to 150 years has probably already been born. What will your life look like when you live to be over 100? Will you be healthy? Will your marriage need a sunset clause? How long will you have to work? Will you finish one career at sixty-five only to go back to school to learn a new one? And then, will you be happily working for another sixty years? Maybe you'll be a parent to a newborn and a grandparent at the same time. Will the world become overpopulated? And how will living longer affect your finances, your family life, and your views on religion and the afterlife? In *100 Plus*, futurist*

Sonia Arrison takes us on an eye-opening journey to the future at our doorsteps, where science and technology are beginning to radically change life as we know it. She introduces us to the people transforming our lives: the brilliant scientists and genius inventors and the billionaires who fund their work. The astonishing advances to extend our lives -- and good health -- are almost here. In the very near future fresh organs for transplants will be grown in laboratories, cloned stem cells will bring previously unstoppable diseases to their knees, and living past 100 will be the rule, not the exception. Sonia Arrison brings over a decade of experience researching and writing about cutting-edge advances in science and technology to 100 Plus, painting a vivid picture of a future that only recently seemed like science fiction, but now is very real. 100 Plus is the first book to give readers a comprehensive understanding of how life-extending discoveries will change our social and economic worlds. This illuminating and indispensable text will help us navigate the thrilling journey of life beyond 100 years. The authors document how four forces--exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion--are conspiring to solve our biggest problems. "Abundance" establishes hard targets for change and lays out a strategic roadmap for governments, industry and entrepreneurs, giving us plenty of reason for optimism. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a

place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. Exploit the power and potential of Big Data to revolutionize business outcomes Big Data Revolution is a guide to improving performance, making better decisions, and transforming business through the effective use of Big Data. In this collaborative work by an IBM Vice President of Big Data Products and an Oxford Research Fellow, this book presents inside stories that demonstrate the power and potential of Big Data within the business realm. Readers are guided through tried-and-true methodologies for getting more out of data, and using it to the utmost advantage. This book describes the major trends emerging in the field, the pitfalls and triumphs being experienced, and the many considerations surrounding Big Data, all while guiding readers toward better decision making from the perspective of a data scientist. Companies are generating data faster than ever before, and managing that data has become a major challenge. With the right strategy, Big Data can be a powerful tool for creating effective business solutions – but deep understanding is key when applying it to individual business needs. Big Data Revolution provides the insight executives need to incorporate Big Data into a better business

strategy, improving outcomes within innovation and efficient use of technology. Examine the major emerging patterns in Big Data Consider the debate surrounding the ethical use of data Recognize patterns and improve personal and organizational performance Make more informed decisions with quantifiable results In an information society, it is becoming increasingly important to make sense of data in an economically viable way. It can drive new revenue streams and give companies a competitive advantage, providing a way forward for businesses navigating an increasingly complex marketplace. Big Data Revolution provides expert insight on the tool that can revolutionize industries. "DON'T GET MAD ABOUT OBAMAGEDDON...GET EVEN!" Build your wealth. Protect your faith and family. Secure your freedom. Don't just survive Obama...learn how to outsmart his big-government, socialist system and thrive! Bad times are coming -- how will you protect your family, save enough for retirement, and turn your home into a fortress? In The Ultimate Obama Survival Guide, Wayne Allyn Root provides the answer. First, he explains step by step what Obama has planned. Then, Root presents Y-PODS: Your Personal Obama Defense Shields - a detailed 18 point plan to protect your assets, capitalize, and PROSPER as the rest of the country treads water - or drowns! And that's just the beginning. Wayne Allyn Root is a passionate Capitalist Evangelist, serial entrepreneur, and small businessman extraordinaire. He knows what it takes to weather any

economic storm. You're going to need Root's expertise as you and your family tackle the biggest challenge facing Americans today: Barack Obama's second term in the White House. Root takes you on a tour of the practical, real-life ways you can fight back and WIN, not just at the ballot box, but in your bank account, retirement account, safety deposit box, on your tax forms, at your church, in your home, your schools, and at your doctor's office. The Ultimate Obama Survival Guide also features exclusive advice from 18 superstars of business and finance - millionaires, billionaires, and managers of billion dollar hedge funds, who provide their specific plans for investing in precious metals, real estate, stocks, bonds, ETFs and more. What one investment decision made in 1913 turned \$1,000,000 into \$87,000,000? What investment decision outperformed Warren Buffet by 300% since 2000? What investment have central bankers around the world bought more of in the past year, than in all the years since 1964 COMBINED? Root provides the answers – along with detailed advice on the smart investments now, the best places to move to escape Obama's poisonous taxes, the best way to educate your children, survival advice on how to turn your home into a fortress, how to survive if the economy collapses and unrest threatens your family. If you are worried about what Obama has in store (and you should be) then arm yourself with Root's step-by-step instructions to protect yourself and your family RIGHT NOW from the Obama invasion of every

aspect of your life. Our Ecological Footprint presents a powerful model for measuring humanity's impact on the Earth to reduce the harm we are causing the planet before it's too late. While some people believe we can find a middle ground between environmental conservation and economic development, or that future technological discoveries will solve the problem, the authors warn that our planet's limited resources simply can't support an economic system based on unlimited growth. Our Ecological Footprint offers a valuable tool to help us live more sustainably and safeguard our natural resources for generations to come. From the New York Times bestselling authors of Abundance and Bold comes a practical playbook for technological convergence in our modern era. In their book Abundance, bestselling authors and futurists Peter Diamandis and Steven Kotler tackled grand global challenges, such as poverty, hunger, and energy. Then, in Bold, they chronicled the use of exponential technologies that allowed the emergence of powerful new entrepreneurs. Now the bestselling authors are back with The Future Is Faster Than You Think, a blueprint for how our world will change in response to the next ten years of rapid technological disruption. Technology is accelerating far more quickly than anyone could have imagined. During the next decade, we will experience more upheaval and create more wealth than we have in the past hundred years. In this gripping and insightful roadmap to our near future, Diamandis and Kotler investigate how wave

*after wave of exponentially accelerating technologies will impact both our daily lives and society as a whole. What happens as AI, robotics, virtual reality, digital biology, and sensors crash into 3D printing, blockchain, and global gigabit networks? How will these convergences transform today's legacy industries? What will happen to the way we raise our kids, govern our nations, and care for our planet? Diamandis, a space-entrepreneur-turned-innovation-pioneer, and Kotler, bestselling author and peak performance expert, probe the science of technological convergence and how it will reinvent every part of our lives—transportation, retail, advertising, education, health, entertainment, food, and finance—taking humanity into uncharted territories and reimagining the world as we know it. As indispensable as it is gripping, *The Future Is Faster Than You Think* provides a prescient look at our impending future. Wenn zwei New York Times-Bestsellerautoren für ihr neuestes Werk unter anderem auf Erkenntnisse von Larry Page, Elon Musk, Richard Branson und Jeff Bezos zurückgreifen, dann kommt heraus: ein radikales Manifest, wie exponentiell denkende Unternehmer in den nächsten Jahren die Welt erändern werden. Peter Diamandis und Steven Kotler untersuchen die Technologien, die aktuell ganze Industrien umwälzen und den Weg eines Gründers von 'Ich habe eine Idee' zu 'Ich führe ein Milliardenunternehmen' so kurz wie nie zuvor gemacht haben. Sie geben tiefe Einblicke in die Welt von 3D-Druck,*

künstlicher Intelligenz, Robotern, intelligenten Netzen und synthetischer Biologie. Sie zeigen, wie man millionenschwere Crowdfunding-Kampagnen lostritt und erfolgreiche Communities gründet. 'Bold' ist Manifest und Ratgeber gleichermaßen. Es ist unverzichtbar für moderne Unternehmer, die disruptive Technologien und die unglaubliche Macht der Crowd nutzen wollen. Ultimate Gig will serve to answer questions and help gig-providing companies and workers make decisions by informing, inspiring and motivating as well as serving as a teaching tool. Most importantly it will give the reader a better understanding of the most significant labor revolution in the past 100 years as to how work can be done. "One of the most remarkable accomplishments in our conquest of gravity." — Sir Arthur C. Clarke In April, 2003, a company called Scaled Composites introduced SpaceShipOne to the world. SpaceShipOne: An Illustrated History chronicles the development of the world's first commercial manned space program—a program that includes an airborne launcher (the White Knight), a space ship (SpaceShipOne), rocket propulsion, avionics, simulator, and full ground support. With ample illustrations, photographs, and behind-the-scenes information, SpaceShipOne provides a full picture of this classified project. The story of SpaceShipOne combines the adventurous spirit of Charles Lindbergh, the entrepreneurial drive of Howard Hughes, and the urgency of the space race at the height of the Cold War. A unique, wide-

ranging examination of asteroid exploration and our future in space Human travel into space is an enormously expensive and unforgiving endeavor. So why go? In this accessible and authoritative book, astrophysicist Martin Elvis argues that the answer is asteroid exploration, for the strong motives of love, fear, and greed. Elvis's personal motivation is one of scientific love--asteroid investigations may teach us about the composition of the solar system and the origins of life. A more compelling reason may be fear--of a dinosaur killer-sized asteroid hitting our planet. Finally, Elvis maintains, we should consider greed: asteroids likely hold vast riches, such as large platinum deposits, and mining them could provide both a new industry and a funding source for bolder space exploration. Elvis explains how each motive can be satisfied, and how they help one another. From the origins of life, to "space billiards," and space sports, Elvis looks at how asteroids may be used in the not-so-distant future. Afterword by Professor Stephen Hawking "Reads like a thriller - and reveals many secrets... one of the great entrepreneurial stories of our time" (Washington Post) From the age of eight, when he watched Apollo 11 land on the Moon, Peter Diamandis's singular goal was to get to space. When he realized NASA was winding down manned space flight, he set out on one of the great entrepreneurial adventure stories of our time. If the government wouldn't send him to space, he would create a private space flight industry himself. In the 1990s, this idea was the stuff of

science fiction. Undaunted, Diamandis found inspiration in the golden age of aviation. He discovered that Charles Lindbergh made his transatlantic flight to win a \$25,000 prize. The flight made Lindbergh the most famous man on earth and galvanized the airline industry. Why, Diamandis thought, couldn't the same be done for space flight? The story of the bullet-shaped SpaceShipOne, and the other teams in the hunt for a \$10 million prize is an extraordinary tale of making the impossible possible. In the end, as Diamandis dreamed, the result wasn't just a victory for one team; it was the foundation for a new industry. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. Bold is a radical how-to guide for using exponential technologies, moonshot thinking, and crowd-powered tools to create extraordinary wealth while also positively impacting the lives of billions. A follow-up to the authors' Abundance (2012). Originally published in 1986. This book is a unique compilation of biographical sketches which covers editors, publishers, photographers, bureau chiefs, columnists, commentators, cartoonists, and artists. Alphabetical entries provide

overviews of the lives and personalities of a good cross-section of important people. There is also a short essay on awards and prize winners. Everything is efficiently indexed. This is a supremely useful reference tool for those in mass media and popular culture fields. For today's organizations, our exponentially changing world has come with great consequences. In this book, Peter Hinssen tells the story of the pioneers who managed to adapt to those changes and who moved beyond today and even tomorrow in their approach of innovation. In doing so, they were able to change the course of entire industries. Peter's book focuses on the business models of these pioneers, on the organizational culture, the talent, the mindset and the technology we should tap into in order to maximize our chances for survival in the 'Day After Tomorrow'. It will shift your perspective on your future, on the future of your company and even that of your grandchildren. Was wäre, wenn es wissenschaftliche Lösungen gäbe, die Ihre tiefsten Ängste vor einer Krankheit, einer lebensbedrohlichen Diagnose oder den Auswirkungen des Alterns auslöschen könnten? Life Force zeigt Ihnen, wie Sie jeden Tag mit mehr Energie, einem starken Immunsystem und dem Know-how aufwachen können, das Sie benötigen, um Ihre biologische Uhr zurückzudrehen. Dieses Buch ist für jeden geeignet, vom Hochleistungssportler über den Durchschnittsmenschen, der seine Energie und Kraft steigern möchte, bis hin zu Menschen, die Heilung suchen.

Es liefert Antworten, die Ihr Leben oder das Leben eines geliebten Menschen verändern und sogar retten können. Tony Robbins, international die Nummer eins der Lebens- und Geschäftsstrategen, stellt Ihnen mehr als 100 der weltweit führenden Mediziner vor und präsentiert Ihnen die neuesten Forschungsergebnisse, inspirierende Comeback-Geschichten und erstaunliche Fortschritte in der Präzisionsmedizin, die Sie bereits heute anwenden können, um die Dauer und Qualität Ihres Lebens zu verlängern. Was Sie hier lesen ist das Ergebnis der Reise, die Tony Robbins selbst unternommen hat, um sein Leben zu verändern. Nachdem ihm gesagt wurde, dass seine gesundheitlichen Probleme unumkehrbar seien, erlebte er aus erster Hand, wie die neue regenerative Technologie ihm nicht nur half sich zu heilen, sondern ihn auch stärker machte als je zuvor. "Ich habe dieses Buch, mein ultimatives Notizbuch voller nützlicher Werkzeuge, für mich selbst kreiert. Es hat mein Leben verändert und ich hoffe, dir wird es genauso helfen." TIM FERRISS "In den letzten zwei Jahren habe ich beinahe 200 Weltklasse-Performer interviewt. Die Bandbreite der Gäste reicht von Stars (Jamie Foxx, Arnold Schwarzenegger) und Topathleten bis hin zu legendären Kommandanten von Spezialeinheiten und sogar Schwarzmarkt-Biochemikern. Viele meiner Gäste akzeptierten erstmals in ihrer Karriere ein Zwei-bis-drei-Stunden-Interview. Dieses Buch enthält unverzichtbare Tools, Taktiken und Insiderwissen, die anderswo nicht zu

finden sind, außerdem neue Tipps von früheren Gästen und Lebensweisheiten neuer Gäste, die du noch nicht kennst."
Was das Buch so außergewöhnlich macht, ist der unablässige Fokus auf leicht umsetzbare Details: - Was tun diese Titanen in den ersten 60 Minuten an jedem Morgen? - Wie sieht ihre Trainingsroutine aus und warum? - Welches Buch haben sie am häufigsten an andere Menschen verschenkt? - Was betrachten sie als die größten Zeitverschwender? - Welche Nahrungsergänzungsmittel nehmen sie täglich? "Alles, was du auf diesen Seiten liest, habe ich in meinem Leben bereits auf die eine oder andere Weise angewandt. Ich habe Dutzende der dargestellten Taktiken bei kritischen Verhandlungen, in riskanter Umgebung oder bei großen Deals eingesetzt. Die Lektionen haben mir zu Millionen von Dollar verholfen und mich vor Jahren verschwendeter Bemühungen und Frustration bewahrt." TIM FERRISS
