Fundamental to understanding human sexual expression is reliable and valid measurement and assessment. Many instruments have been developed to measure a myriad of sexuality-related states, traits, behaviors, and outcomes. Few are easily accessible and the information is limited concerning appropriate use and psychometric properties. In Handbook of Sexuality-Related Measures, more than 200 instruments are reproduced, accompanied by the necessary information for their use

in research, as well as educational and clinical settings. Measures relating to more than 50 topics are included. Examples are abortion, aging, arousal, general and specific attitudes and behavior, contraception, dysfunctions, education, experience, gender identity, homosexuality, ideology, jealousy, knowledge, masturbation, orgasm, rape, and sexually transmitted diseases. Each chapter describes the development and appropriate use of each instrument, giving information on timing, scoring, and interpretation. Reliability and validity data are summarized and completely referenced. Nearly all articles include the entire instrument; others provide illustrative content from the instrument and give all necessary information to obtain the instrument. Thoughtful, provocative and intelligent, this game-changing book looks at sexual assault and the global discourse on rape from the viewpoint of a survivor, writer, counsellor and activist. Sohaila Abdulali was the first Indian rape survivor to speak out about her experience. Gang-raped as a teenager in Mumbai and indignant at the deafening silence on the issue in India, she wrote an article for a women's magazine questioning how we perceive rape and rape victims. Thirty years later she saw the story go viral in the wake of the fatal 2012 Delhi rape and the global outcry that followed. Drawing on three decades of grappling with the issue personally and professionally, and on her work with hundreds of other survivors, she explores what we think about rape and what we say. She also explores what we don't say, and asks pertinent questions about who gets raped and who rapes, about consent and desire, about redemption and revenge, and about how we raise our sons. Most importantly, she asks: does rape always have to be a life-defining event, or is it possible to recover joy? Equips parents to teach their children how to make sexuality a safe, healthy, and sacred part of their lives. How parents address sex—their openness, the context, and their attitudes—will impact how their children view their own sexuality and self-worth. Dr. Chirban helps parents know when, how, and how much, and stresses the vital importance of their role in sex education. He uses humor, compassion, and real-life examples to prepare parents for healthy and ongoing conversations that equips their kids to own their own sexuality and provide an understanding of the larger issues of relationships, love, commitment, and intimacy. In addition, parents discover how helping

their children grasp these veiled yet critical keys to a fulfilling life deepens their own connection with their children. With specific helps for children from birth through young adult, Dr. Chirban provides context for what needs to be communicated at each stage of their development as well as tips for the inevitable surprise questions. In addition, he tackles complicated issues such as pornography, relationships and the Internet, sexting, and homosexuality. Most important is the emphasis on strong family values and spirituality as it relates to sexuality. Previously released in 2007 as *What's Love Got to Do With It?*, this revised book adds new insights from today's culture that make it even more relevant to parents and families. Provides an introduction to human sexual development and sexuality meant to be read together by a parent and child, with a section that provides guidance for parents. First created by Planned Parenthood/Mar Monte in the late 1980's, this well loved, updated guide insures that children will be given accurate, age-appropriate information about sex. This read-together book helps to begin an open dialogue in the family. Parents and educators will find discussions of feelings, respecting oneself and others, what's normal, making sense of love and sex, and helpful advice. The book is filled with sound information, illustrations and diagrams, appropriate body terminology, information on STDs and more. Here, the changes all preteens go through are explained in a simple, straight-forward manner. In the Parent's Guide (in the back of the book) is the information on how approach the BIG TALK in a way that is comfortable and positive. Linda and Richard Eyre stress that it's never too soon-or too late-to start discussing sex and values with your children, and they've got proven strategies to make it easier. For parents who want to go beyond the birds and the bees talk, *How to Talk to Your Child About Sex* provides thoughtful, clear, specific guidance on when and, most important, how to help children begin to learn and understand sex, love, and commitment from the most positive viewpoint possible. Preliminary "as needed" talks with three-to eight-year-olds The age eight Big Talk Follow-up talks with eight-to thirteen-year-olds Behavior discussions and guidelines with eleven-to sixteen-year-olds Discussions of perspective and personal standards with fifteen-to nineteen-year-olds Examining a range of issues played out in living rooms and schools since the 1960s, she shows how a

newly emerging Christian Right chose sex education as one of its first battlegrounds, then went on to dominate the public conversation on the subject. Talk about Sex is a rich and fascinating consideration of American sex education's strategic place in the long history of efforts to regulate sexual morality by controlling sexual speech."--BOOK JACKET. Sex, intimacy, and love remain taboo topics in many Muslim circles today. Some believe such intimate subjects should not be discussed at all, and others see no need for restrictions being placed on either their discussion or practice. Let's Talk About Sex and Muslim Love is a collection of some of the most widely read essays and reflections written by Umm Zakiyyah, internationally acclaimed author of If I Should Speak and His Other Wife, as she directly confronts the taboo while offering a refreshing perspective that balances frank honesty with religious sensitivity. The essays include "Good Muslims Don't Think About Sex," "She Couldn't Have Sex," "Gay and Muslim?" and many others. The book tackles topics ranging from false modesty that leads to unnecessary sexual shame and the inability to enjoy or have sex even within the confines of marriage, to the conundrums of polygamy and divorce, as well as forbidden relationships and same-sex attraction. Sex, Work and Professionalism examines what happens when professional concern is defined in terms of sex. Based on original fieldwork with outreach workers in HIV prevention it addresses issues of professionalism, emotion work and boundaries, integrating empirical insights with sociological theory. In most professional relationships sex is not defined as part of the relationship, in fact it is explicitly excluded in guidelines and codes of ethics. HIV prevention outreach workers work in sexual environments with a sexually defined target group and are often employed on the basis of their sexuality. They have to learn how to balance their work and professional lives, overcoming conflicts such as: * professional role V community role * sexual skills V sexual boundaries * personal experiences V professional understanding * professional identity V worldviews. Many of the questions being raised in this book about the meaning of professionalism, the pain and pleasure in emotion work and the management of boundaries between home, sex and work are being asked more generally by workers in a range of organisations. Sex, Work and Professionalism argues for a new

understanding of professionalism more appropriate to the human services. Having trouble talking to your kids about sex? Their friends at school don't... Unfortunately, for many parents, the most important conversations are the hardest. Ninety-three percent of adults are dissatisfied with the sex education they received as children, which is precisely why they are so bad at teaching their kids—they have no frame of reference. Renowned Harvard Medical School psychologist and frequent Dr. Phil guest John Chirban helps parents talk to their kids . . . about sex. Kids are going to learn about sex, and it is up to parents to decide if their kids are going to learn from them or from MTV. How parents address sex—their openness, the context, and their attitudes—will impact how their children view their own sexuality and self worth. Dr. Chirban helps parents know when, how, and how much. He uses humor, compassion, and real-life examples to prepare parents for a healthy and ongoing conversation that will equip their kids to own their own sexuality and an understanding of the larger issues of relationships, love, commitment, and intimacy. In addition, parents understand how helping their children understand these veiled yet critical keys of a fulfilling life deepens their own connection with their children. Written by Dr. Marty Klein, a Certified Sex Therapist and Licensed Marriage and Family Therapist with more than three decades' experience, this fascinating book contests the common belief that pornography is unilaterally harmful to individuals and our society, addresses common concerns and debunks widely believed myths, and explains how to heal America's obsession with porn by engaging in honest talk about sex. • Provides the only book to discuss and resolve conflicts about pornography without demonizing porn or porn users • Confronts a common source of conflict in marriage and anxiety in parenting—and presents innovative, practical ways to resolve these problems using down-to-earth language • Shows why there's no such thing as "porn addiction," explains why it really matters what we call it, exposes the billion-dollar industry behind this failed concept, and offers real insight and hope for people concerned about their involvement with pornography • Shows how new technologies are always adapted for sexual purposes—making the Internet's application to pornography a technology issue as much as a sexual issue • Identifies—and corrects—the most common myths and

junk science about pornography • Describes the politics through which progressive feminists and the Religious Right have wound up in bed together opposing pornography—by re-branding porn from an immorality problem to a public health crisis • Explains how America's lack of real sex education and frank talk from adults leaves young people looking at porn for sex information—and what they're actually learning from it • Explains how America's lack of real sex education and frank talk from adults leaves young people looking at porn for sex information—and what they're actually learning from it • Relieves parental anxiety with easy-to-follow advice on talking with kids about porn, including conversations about youth "sexting" • Appeals to general readers: educators, psychologists, clergy, and social workers; and policymakers, scholars, students, and researchers in psychology, law, public policy, communications, and media studies

Talkabout Sex & Relationships 2 is a comprehensive toolkit for all therapists, educators and support staff who deliver sex education to people with special needs. It is intended primarily to support groupwork but activities can be easily adapted to suit the needs of individuals with varying abilities. The resource emphasises the importance of being well informed in regards to the physical, interpersonal and emotional aspects of sex; including body awareness, consent, sexual health and guidelines for a healthy sexual relationship. It is packed with practical activities which are designed to open up discussion around sensitive issues in a fun, informative and non-judgemental way. Each activity comes with guidance for practitioners on how to prepare for and delivery the sessions. Features include:

- guidelines to assess the suitability of students for the programme
- visually appealing and engaging activities with full colour illustrations
- photocopiable activities which can also be downloaded for free on the accompanying website
- template letters for parental permission in delivering the sessions

This toolkit is the second in a two volume set, the first of which focuses on relationships. Created by Alex Kelly and Emily Dennis as part of the bestselling Talkabout series, this publication constitutes the most complete and trustworthy set of resources available for groupwork focussing on sex and relationships for people with special needs. Sexual images saturate today's culture--and children will learn about sex somewhere. But research shows that they want to learn from

the parents they trust. Talking about sex doesn't have to be a fear-filled challenge. The Focus on the Family® Guide to Talking with Your Kids about Sex shows parents how to talk with confidence to their kids about sex and sexuality. This candid resource is full of the latest information, practical insights, and age-appropriate answers to the questions parents and children ask about sex. Focus on the Family's Physicians Resource Council, along with research from The Medical Institute for Sexual Health provides parents with the tools and empowering encouragement they need in order to communicate more effectively and biblically about sex, self-control, and self-respect at every stage of a child's development. From the start of the new Australian nation in 1901, to the use of the female contraceptive pill in 1961, Let's Talk About Sex explores the ways sexuality has been constructed, understood and experienced in Australia. Far from being something hidden and private, this work brings sexuality out into the open, and explains why sex is of social, cultural, political and economic importance. Let's Talk About Sex is an inclusive history, surveying multiple and interwoven forms of sexuality, desire, pleasure, regulation and resistance. It begins with the long Victorian period: the hidden desires of women and the "hydraulic" sexual needs of men, both in the cities and on the frontier. It moves across the decades, considering heterosexuality, homosexuality, lesbians and nascent ideas about queer and sexual difference. Lisa Featherstone highlights the tensions of the ages: venereal disease, homophobia, birth control, rape and child sexual assault. She analyses the ways non-normative sexuality was constructed as evil and perverse, but also how men and women responded to this pathologising of their desires. Let's Talk About Sex provides a fascinating account of sex, gender, age and race, across the formative years of Australian society. Children need to be able to disclose their experiences of sexual abuse in order to stop the abuse and get help. Practical and accessible, this book offers guidance on how professionals can identify potential abuse cases and create safe opportunities for children to talk about sexual abuse. The book explores challenges in facilitating and responding to disclosures of abuse, such as: how to recognise the signs, ask the right questions and react to a disclosure. It also draws on research carried out with children who have experienced sexual abuse, to convey how experiences of disclosure feel

to those making them and what informs a decision to tell or not tell. *Helping Children to Tell About Sexual Abuse* will be suitable for any professional working with a child or young person, including social workers, psychologists, child/family therapists, health care workers, school nurses, school counsellors, health visitors, police and youth workers. *Everyday Talk About Sex & Marriage* is written for parents of teenagers and soon-to-be-teenagers. The short, approachable chapters written by a dad and his son who have been through these talks offer wisdom, guidance and application. Includes six sample conversations to help and encourage parents as they navigate these challenging topics. Sometimes we convey what we mean not by what we say but by what we do. This type of indirect communication is sometimes called 'indirection'. From patent miscommunication, through potent ambiguity to pregnant silence this incisive collection examines from a rare anthropological perspective the many aspects of indirect communication. From a Mormon Theme Park to carnival time on Montserrat the contributors analyse indirection by illustrating how food, silence, sunglasses, martial arts and rudeness can constitute powerful ways of conveying meaning. *An Anthropology of Indirect Communication* is an engaging text which provides a challenging introduction to this subject. Illustrated throughout with witty, but always accurate cartoons, this book provides thorough, frank, up-to-date and reassuring information on all aspects of growing up, puberty, sex and sexual health. *Dear G-Spot* is New York Times bestselling author Zane's long-awaited guide to what she knows better than anyone else: love and sex. *Dear G-Spot* includes real letters from real people, both women and men, who have sought Zane's advice over the years -- the preacher's wife worrying about being judged, the virgin, the guy next door, the gay man next door, the woman with low self-esteem, and the other woman with a sex drive over the moon. In her own uniquely candid and humorous way, Zane answers all your questions -- even questions you never thought to ask -- about making whoopee. *Talkabout Sex & Relationships 1* is a comprehensive toolkit for all therapists, educators and support staff who deliver relationship education to people with special needs. It is intended primarily to support groupwork but activities can be easily adapted to suit the needs of individuals with varying abilities. The resource

emphasises the importance of happy, healthy and positive relationships. It looks at the life cycle of a relationship from finding a partner, coping with problems, staying safe and maintaining a relationship to dealing with the potential ending of a relationship. This toolkit is the first in a two volume set, the second of which will focus on sex. Created by Alex Kelly and Emily Dennis as part of the bestselling Talkabout series, this publication constitutes the most complete and trustworthy set of resources available for groupwork focussing on relationships for people with special needs. Describes the political transformations, cultural dynamics, and affective rhetorics that together helped ignite the passionate conflicts over sex education on both the national and local levels in the United States. Barry Chant tackles the subject of sex with complete openness and a sense of humor. He gives practical advice without soft generalities, not only to teenagers, but to everyone. Using lively anecdotes and scriptural principles, Barry Chant shows that we can be fulfilled when we abide by the standards of the Word of God. Talkabout for Children: Developing Self-Awareness and Self-Esteem is a bestselling professional workbook supporting educators and therapists who deliver social and relationship skills groups for children with social, emotional or behavioural difficulties. Self-awareness and self-esteem is an essential prerequisite to developing social skills and so this book is an excellent first step to any social skills programme. This resources creates the foundation of the Talkabout heirachy, where self-awareness comes before non-verbal skills and non-verbal comes before verbal, with assertiveness coming last. Resources include: an assessment framework planning and evaluation forms a three-term intervention plan for schools over 40 structured activity sessions focussing on self-awareness and self-esteem all the supplementary handouts and images needed to deliver the sessions. This second edition is presented with full-colour illustrations and handouts, and includes a new introduction by Alex Kelly reflecting on her own experiences of using the resources since they were first developed. "A truly vital and nuanced guide that is as empowering as it is educational." —School Library Journal (starred review) You deserve clear, accurate information about sexual consent! Let this honest and empowering book be your go-to guide. Let's get real: Sex is complicated. Like, really complicated. And as a teen, you need trusted

resources to help you navigate sexual issues without shame, guilt, or judgment. But if you're like many teens, you may not have someone in your life that you can talk to openly about complicated sexual situations, and what consent really means—and this information is crucial for your health, safety, and happiness. *Real Talk About Sex and Consent* is a comprehensive guide with essential information about setting boundaries, coercion, reciprocity, and communication. You'll also find hard facts about sex and trauma, the effects of pornography and cultural expectations, and much more. With this book, you'll learn how to make sexual decisions that honor your sense of values and cultivate rewarding and emotionally supportive relationships throughout your life. This book goes past simple definitions of sex and consent and explores the hidden pressures, misrepresented expectations, and realities of sex—and what to do about it all. It's time to get informed and take control of your sexual self. This book will give you the tools you need to make decisions that are right for you.

Youtuberin Hannah Witton nimmt kein Blatt vor den Mund und erzählt einfach drauf los, wie es ist, mit dem Sex und der Liebe. Es geht um das erste Mal, um Verhütung, Selbstbefriedigung, Pornos, LGBTQ+, Sexting, Sex und Alkohol, Konsens, Körperwahrnehmung und vieles mehr: Ein kunterbunter Mix aus unterhaltsamen Anekdoten, klugen Kommentaren und zahlreichen hilfreichen Tipps, bei dem man sich einfach das herauspicken kann, was einen interessiert. Wie entwickelt sich Sexualität mit dem Älterwerden? Wird sie reifer und damit besser, oder verliert sich die Lust mit den Jahren? Lassen sich Beziehung und sexuelles Begehren getrennt voneinander gestalten? Gelingt ein erfülltes Liebesleben im Alter nur mit einem attraktiven Körper? Wie sehr begrenzen Ideologien oder eigene Vorstellungen die Entfaltung einer lustvollen Sexualität? Sibylle von den Steinen stellt diese und andere Fragen Menschen, die bereit sind, Auskunft zu geben über ihre sexuelle Entwicklung, über Gewinn und Verlust im Alter. Männer wie Frauen erzählen freimütig über ihr Liebesleben und über die ewige Suche nach Erfüllung. So wie die polyamouröse Lilith, die mit zwei Partnerinnen in einem Haus lebt und weitere Liebschaften in anderen Städten hat. Oder der dreiundfünfzigjährige Hagen, der nach dreißig Jahren Ehe und einer schmerzhaften Trennung nun seine »Sturm-und-Drang-Zeit« erlebt. Und

Sabine, die am liebsten ein Freudenhaus für Frauen eröffnen würde und von »Kuschelzonen an jeder Straßenecke« träumt. Das Buch enthält ermutigende Antworten sowie erstaunliche Lebensentwürfe und zeigt so eine Vielfalt von Möglichkeiten, das Älterwerden zu gestalten.

Written by an award-winning author and veteran sex therapist, this practical, innovative, and often passionate book addresses the explosion of pornography use, advises couples on defusing conflict about it, guides parents in helping their kids deal with it, advises people concerned about their use of it, and shows how honest talk about sex can resolve America's "porn panic." * Provides the only book to discuss and resolve conflicts about pornography without demonizing porn or porn users * Confronts a common source of conflict in marriage and anxiety in parenting—and presents innovative, practical ways to resolve these problems using down-to-earth language * Shows why there's no such thing as "porn addiction," explains why it really matters what we call it, exposes the billion-dollar industry behind this failed concept, and offers real insight and hope for people concerned about their involvement with pornography * Shows how new technologies are always adapted for sexual purposes—making the Internet's application to pornography a technology issue as much as a sexual issue * Identifies—and corrects—the most common myths and junk science about pornography * Describes the politics through which progressive feminists and the Religious Right have wound up in bed together opposing pornography—by re-branding porn from an immorality problem to a public health crisis * Explains how America's lack of real sex education and frank talk from adults leaves young people looking at porn for sex information—and what they're actually learning from it * Relieves parental anxiety with easy-to-follow advice on talking with kids about porn, including what to say about youth "sexting" * Appeals to general readers, educators, psychologists, clergy, social workers, and policymakers as well as scholars, students, and researchers in psychology, law, public policy, communications, and media studies A

renowned sexologist shows us we're not alone when it comes to problems of sex and love. Ann-Marlene Henning has improved the sex lives of thousands through her TV show and advice blog. Now, readers can experience her sought-after talk therapy in *Let's Talk About Sex*, which illuminates common bedroom plights with real client stories. Meeting with couples of diverse identities and sexual orientations, Henning offers a rare window into the therapist's mind. She shares her first impressions, explains her thinking as she decides what to ask now (and what to save for later), and solves problems that range from disagreements over fetishes to a lackluster sex life. The result is a timely portrait of modern sex, one that raises as many questions as it offers real, tangible solutions. Americans remain deeply ambivalent about teenage sexuality. Many presume that such uneasiness is rooted in religion. But how exactly does religion contribute to the formation of teenagers' sexual values and actions? What difference, if any, does religion make in adolescents' sexual attitudes and behaviors? Are abstinence pledges effective? What does it mean to be "emotionally ready" for sex? Who expresses regrets about their sexual activity and why? Tackling these and other questions, *Forbidden Fruit* tells the definitive story of the sexual values and practices of American teenagers, paying particular attention to how participating in organized religion shapes sexual decision-making. Merging analyses of three national surveys with stories drawn from interviews with over 250 teenagers across America, Mark Regnerus reviews how young people learn—and what they know—about sex from their parents, schools, peers and other sources. He examines what experiences teens profess to have had, and how they make sense of these experiences in light of their own identities as religious, moral, and responsible persons. Religion can and does matter, Regnerus finds, but religious claims are often swamped by other compelling sexual scripts. Particularly interesting is the emergence of what Regnerus calls a new middle class sexual morality which has little to do with a desire for virginity but nevertheless shuns intercourse in order to avoid risks associated with pregnancy and STDs. And strikingly, evangelical teens aren't less sexually active than their non-evangelical counterparts, they just tend to feel guiltier about it. In fact, Regnerus finds that few religious teens have internalized or are even able to articulate the sexual

ethic taught by their denominations. The only—and largely ineffective—sexual message most religious teens are getting is, "Don't do it until you're married." Ultimately, Regnerus concludes, religion may influence adolescent sexual behavior, but it rarely motivates sexual decision making. "The talk." Most parents dread this awkward conversation, hoping to avoid it as long as possible. But in our sexualized culture, you can't afford to let others educate your teen in this area. This guide offers a framework for talking about sex in appropriate ways so you can shape your teen's perspective about God's good plan for sex. Parent Guides are your one-stop shop for biblical guidance on teen culture, trends, and struggles. In 15 pages or fewer, each guide tackles issues your teens are facing right now—things like doubts, the latest apps and video games, mental health, technological pitfalls, and more. Using Scripture as their backbone, these Parent Guides offer compassionate insight to teens' world, thoughts, and feelings, as well as discussion questions and practical advice for impactful discipleship.
